#### Restaurant Menu and Vending Machine Labeling: Recordkeeping and Mandatory Third Party Disclosure Under Section 4205 of the Patient Protection and Affordable Care Act of 2010—(OMB Control Number 0910-0665)—Revision

On March 23, 2010, the President signed into law the Patient Protection and Affordable Care Act of 2010 ("Affordable Care Act") (Pub. L. 111-148). Section 4205 of the legislation, which principally amends sections 403 and 403A of the Federal Food, Drug, and Cosmetic Act (the FD&C Act) (21 U.S.C. 343 and 343-1), requires chain restaurants and similar retail food establishments (SRFE) with 20 or more locations doing business under the same name and offering for sale substantially the same menu items (hereinafter "chain retail food establishments"), as well as operators of 20 or more vending machines (hereinafter "chain vending machine operators"), to disclose certain nutrition information for certain food items offered for sale so that consumers can make more informed choices about the food they purchase. Section 4205 of the Affordable Care Act preempts State and local governments from establishing menu labeling requirements for chain retail food establishments and vending machine nutrition labeling requirements that are not "identical to" the section 4205 requirements.

Section 4205 became effective on the date the law was signed, March 23, 2010. The provisions that went into immediate effect are as follows:

For chain retail food establishments:

- Disclosing the number of calories in each standard menu item on menus and menu boards,
- Making additional written nutrition information available to consumers upon request,
- Providing a statement on menus and menu boards about the availability of the written nutrition information, and
- Providing calorie information (per serving or per food item) for self-service items and food on display, in a sign adjacent to each food item.

For chain vending machine operators:

- Providing a sign in close proximity to each article of food (or the selection button) that discloses the number of calories contained in the article, unless a prospective purchaser is able to examine the Nutrition Facts Panel before purchasing the article, or visible nutrition information is otherwise provided at the point of purchase.
