1. Help America Vote Act—0960-0706. Public Law 107-252, the Help America Vote Act of 2002, mandates that States verify the identities of newly registered voters. When newly registered voters do not have driver's licenses or State-issued ID cards, they must supply the last four digits of their Social Security number to their local State election agencies for verification. The election agencies forward this information to their State Motor Vehicle Administration (MVA), and the State MVA inputs the data into the American Association of MVAs, a central consolidation system that routes the voter data to SSA's Help America Vote Verification (HAVV) system. Once SSA's HAVV system confirms the identity of the voter, the information returns along the same route in reverse until it reaches the State election agency. The respondents are the State MVAs seeking to confirm voter identities.

Type of Request: Revision of an OMB-approved information collection.
