

268-7000. Web address: <http://www.aljoia.com/2ndtier.html>.

Status: Open to the public, limited only by space available. Seating will be limited to approximately 60 people. Due to limited conference space, notification of intent to attend the meeting must be made with Karen Tucker by no later than January 18, 2002. Ms. Tucker can be reached by telephone: 1-800-444-5234, ext 103 or by e-mail: tucker@battelle.org. Requests to attend will be accommodated on a first come basis.

Purpose: To request public assistance in identifying occupational hazards in the Health Services industry which NIOSH should target in a nationally representative survey called the National Exposures at Work Survey (NEWS). In addition, there will be a request for information about the procedures that could be used to gather information on specific health and safety hazards and practices from management and workers during the survey.

NIOSH's Surveillance Strategic Plan¹ calls for the conduct of a comprehensive, nationally representative hazard survey. To this end, NIOSH is planning to conduct the NEWS in a nationally representative sample of workplaces across all industries, starting with the Health Services industry. The purpose of the survey will be to collect data about exposures to occupational hazards and associated occupational groups, use of exposure controls, and management and employee health and safety practices. Prior to conducting the NEWS, a limited number of feasibility or pilot surveys will be necessary for evaluating tools and methods to be used in the NEWS. At this meeting, NIOSH will ask the attendees for their views on what specific hazards and occupational groups should be targeted in the NEWS, and how best to collect information from management and workers without significantly impacting normal business operations. NIOSH is seeking individual input from academicians, researchers, practitioners, government agencies, and others on addressing these topic areas.
