B. Submitting Comments

The NRC encourages electronic comment submission through the Federal Rulemaking website (<https://www.regulations.gov>). Please include

Docket ID NRC–2021–0215 in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* NRC Form 798, "Request for a Medical Exception to the COVID–19 Vaccination Requirement".
2. *OMB approval number:* 3150–0249.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* NRC Form 798.
5. *How often the collection is required or requested:* Once.
6. *Who will be required or asked to respond:* Medical providers will complete section B of the form for NRC employees seeking a medical exemption to the Federal employee vaccine mandate.
7. *The estimated number of annual responses:* 10.
8. *The estimated number of annual respondents:* 10.
9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 5.
10. *Abstract:* Executive Order (E.O.) 14043, titled, "Requiring Coronavirus Disease 2019 Vaccination for Federal Employees," requires all Federal employees, as defined in 5 U.S.C. 2105, to be vaccinated against COVID–19, with exceptions only as required by law. Requests for "medical accommodation" or "medical exceptions" will be treated as requests for a disability accommodation and evaluated and

decided under applicable Rehabilitation Act standards for reasonable accommodation absent undue hardship to the agency. An employee may also request a delay for complying with the vaccination requirement based on certain medical considerations that may not justify an exception under the Rehabilitation Act. The agency will be required to keep confidential any medical information provided, subject to the applicable Rehabilitation Act standards. Employees who receive an exception or a delay from the vaccination requirement would instead comply with alternative health and safety protocols. NRC Form 798, "Request for a Medical Exception to the COVID–19 Vaccine Requirement" will be completed by employees who seek a medical exception and by their personal medical providers.

III. Specific Requests for Comments

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 52–025 and 52–026; NRC–2008–0252]

Southern Nuclear Operating Company, Inc.; Vogtle Electric Generating Plant Units 3 and 4

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC, the Commission) is issuing an exemption from the Commission's regulations in response to a November 5, 2021, request, as supplemented by letter dated November

12, 2021, from Southern Nuclear Operating Company, Inc. (SNC), as applicable to Vogtle Electric Generating Plant (VEGP) Units 3 and 4. Specifically, SNC requested a schedular exemption from NRC requirements, which require, in part, a holder of a combined license (COL) after the Commission finds that the acceptance criteria in the COL are met for the unit to implement all fitness for duty (FFD) requirements, except for certain FFD requirements for construction, before the receipt of special nuclear material in the form of fuel assemblies. Approval of this exemption would allow VEGP Units 3 and 4 to delay implementation of the requirements of an FFD program that meets all FFD requirements, except for certain FFD requirements for construction, until a point before each unit's initial fuel load into the reactor.

DATES: The exemption was issued on December 21, 2021.
