■ 4. Amend § 205.605 by:

■ a. In paragraph (a):

■ i. In the heading, removing the colon and adding a period in its place.

■ ii. Designating the entries as paragraphs (a)(1) through (30).

■ iii. Revising newly designated paragraph (a)(29).

■ b. In paragraph (b):

■ i. In the heading, removing the colon and adding a period in its place.

■ ii. Designating the entries as paragraphs (b)(1) through (36).

■ iii. Further redesignating newly designated paragraphs (b)(12)(i) through (iv), as paragraphs (b)(12)(i) through (iv).

■ iv. Redesignating newly designated paragraphs (b)(18) through (36) as paragraphs (b)(19) through (37).

■ v. Adding new paragraph (b)(18).

The revision and addition read as follows:

Miscellaneous Corrections

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is amending its regulations to make miscellaneous corrections. These changes include correcting typographical errors, removing obsolete language, inserting missing language, and updating the telephone number for the NRC's Region IV office.

DATES: This final rule is effective on December 14, 2022.

ADDRESSES: Please refer to Docket ID NRC–2022–0100 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2022–0100. Address questions about NRC dockets to Dawn Forder; telephone: 301–415–3407; email: Dawn.Forder@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to PDR.Resource@nrc.gov.

- *NRC's PDR:* You may examine and purchase copies of public documents, by appointment, at the PDR, Room P1

I. Introduction

The NRC is amending its regulations in parts 20, 35, 50, 51, 52, 72, 73, 110, and 150 of title 10 of the *Code of Federal Regulations* (10 CFR). The NRC is making these amendments to correct typographical errors, remove obsolete language, insert missing language, and update the telephone number for the NRC's Region IV office.

II. Summary of Changes

10 CFR Parts 20 and 73

Update Telephone Number. This final rule revises appendix D to 10 CFR part 20 and appendix A to 10 CFR part 73 to update the telephone number for the NRC's Region IV office.

10 CFR Part 35

Insert Missing Language. This final rule amends § 35.13 by restoring paragraphs (b)(4)(i) through (iv), which were incorrectly removed by the 2018 final rule “Medical Event Definitions, Training and Experience, and Clarifying Amendments” (83 FR 33046; July 16, 2018).

10 CFR Part 50

Correct Typographical Error. This final rule amends the second sentence in § 50.75(e)(1)(ii)(A) to remove the text “foregoing,that” and add in its place the text “foregoing, that”.

10 CFR Part 51

Remove Obsolete Language. This final rule amends the definition of “NRC staff director” in § 51.4 to update the title

“Director, Office of Governmental and Public Affairs” to “Director, Office of Public Affairs” to align with the current organization, and to update the definition to an inline format.

10 CFR Part 52

Correct Typographical Error. This final rule amends footnote 2 to § 52.17 by correcting “an accidents” to read “an accident.” This correction aligns footnote 2 with footnotes 4, 6, 10, and 12 to other sections within the part.

10 CFR Part 72

Correct Typographical Error. This final rule revises Certificate No. 1029 at § 72.214 by removing extra periods and aligning the text with other renewed certificates in this section.

10 CFR Part 110

Insert Missing Language. This final rule amends § 110.22 by restoring the uranium heels provision that was incorrectly removed by the 2010 final rule “Export and Import of Nuclear Equipment and Material; Updates and Clarifications” (75 FR 44072; July 28, 2010). Uranium heels were added as a provision under the general license by the final rule “Export and Import of Nuclear Equipment and Materials” (65 FR 70287; November 22, 2000). This final rule also amends the provision by adding the United Kingdom to reflect the changes that resulted from the United Kingdom’s withdrawal from the European Union.

10 CFR Part 150

Insert Missing Language. This final rule amends § 150.15 by adding “or part 52 of this chapter” to paragraphs (a)(7)(iii) and (a)(8) to reference licensees under 10 CFR part 52.

Insert Missing Language. This final rule amends § 150.15 by restoring paragraph (a)(9), which was incorrectly removed by the 2014 final rule “Safeguards Information-Modified Handling Categorization; Change for Materials Facilities” (79 FR 58664; September 30, 2014).

III. Rulemaking Procedures

Under section 553(b) of the Administrative Procedure Act (5 U.S.C. 553(b)), an agency may waive publication in the **Federal Register** of a notice of proposed rulemaking and opportunity for comment requirements if it finds, for good cause, that it is impracticable, unnecessary, or contrary to the public interest. As authorized by 5 U.S.C. 553(b)(3)(B), the NRC finds good cause to waive notice and opportunity for comment on these amendments, because notice and

opportunity for comment is unnecessary. The amendments will have no substantive impact and are of a minor and administrative nature dealing with corrections to certain CFR sections or are related only to management, organization, procedure, and practice. Specifically, the revisions correct typographical errors, remove obsolete language, insert missing language, and update the telephone number for the NRC’s Region IV office. The Commission is exercising its authority under 5 U.S.C. 553(b) to publish these amendments as a final rule. The amendments are effective December 14, 2022. These amendments do not require action by any person or entity regulated by the NRC and do not change the substantive responsibilities of any person or entity regulated by the NRC.

IV. Backfitting and Issue Finality

The NRC has determined that the corrections in this final rule would not constitute backfitting as defined in § 50.109, “Backfitting,” and as described in NRC Management Directive (MD) 8.4, “Management of Backfitting, Forward Fitting, Issue Finality, and Information Requests.” These corrections also would not constitute forward fitting as that term is defined and described in MD 8.4 or affect the issue finality of any approval issued under 10 CFR part 52. The amendments are non-substantive in nature, including correcting typographical errors, removing obsolete language, inserting missing language, and updating the telephone number for the NRC’s Region IV office. They impose no new requirements and make no substantive changes to the regulations. The corrections do not involve any provisions that would impose backfits as defined in 10 CFR chapter I, or that would be inconsistent with the issue finality provisions in 10 CFR part 52. For these reasons, the issuance of this final rule would not constitute backfitting or be inconsistent with any of the issue finality provisions in 10 CFR part 52. Therefore, the NRC has not prepared any additional documentation for this correction rulemaking addressing backfitting or issue finality.

V. Plain Writing

The Plain Writing Act of 2010 (Pub. L. 111–274) requires Federal agencies to write documents in a clear, concise, and well-organized manner. The NRC has written this document to be consistent with the Plain Writing Act as well as the Presidential Memorandum “Plain Language in Government Writing,” published June 10, 1998 (63 FR 31885).

VI. National Environmental Policy Act

The NRC has determined that this final rule is the type of action described in § 51.22(c)(2), which categorically excludes from environmental review rules that are corrective or of a minor, nonpolicy nature and do not substantially modify existing regulations. Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this rule.

VII. Paperwork Reduction Act

This final rule does not contain a collection of information as defined in the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) and, therefore, is not subject to the requirements of the Paperwork Reduction Act of 1995.

VIII. Congressional Review Act

This final rule is not a rule as defined in the Congressional Review Act (5 U.S.C. 801–808).

IX. Compatibility of Agreement State Regulations

Under the “Agreement State Program Policy Statement,” approved by the Commission on October 2, 2017, and published in the **Federal Register** on October 18, 2017 (82 FR 48535), NRC program elements (including regulations) are placed into compatibility categories A, B, C, D, NRC, or adequacy category Health and Safety (H&S). Compatibility Category A program elements are those program elements that are basic radiation protection standards and scientific terms and definitions that are necessary to understand radiation protection concepts. An Agreement State should adopt Category A program elements in an essentially identical manner in order to provide uniformity in the regulation of agreement material on a nationwide basis. Compatibility Category B program elements are those program elements that apply to activities that have direct and significant effects in multiple jurisdictions. An Agreement State should adopt Category B program elements in an essentially identical manner. Compatibility Category C program elements are those program elements that do not meet the criteria of Category A or B but contain the essential objectives that an Agreement State should adopt to avoid conflict, duplication, gaps, or other conditions that would jeopardize an orderly pattern in the regulation of agreement material on a national basis. An Agreement State should adopt the essential objectives of the Category C program elements. Compatibility Category D program elements are those program elements

that do not meet any of the criteria of Category A, B, or C and, therefore, do not need to be adopted by Agreement States for purposes of compatibility. Compatibility Category NRC program elements are those program elements that address areas of regulation that cannot be relinquished to the Agreement States under the Atomic Energy Act of 1954, as amended, or provisions of 10 CFR. These program

elements should not be adopted by the Agreement States. Compatibility Category H&S program elements are program elements that are required because of a particular health and safety role in the regulation of agreement material within the State and should be adopted in a manner that embodies the essential objectives of the NRC program. The portions of this final rule that amend 10 CFR parts 20, 35, and 150 are

a matter of compatibility between the NRC and the Agreement States, thereby providing consistency among Agreement State and NRC requirements, and are listed in the following table. The changes to 10 CFR parts 50, 51, 52, 72, 73, and 110 categories are not subject to Agreement State jurisdiction and consequently are not required for compatibility.

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1239

[Docket No. CPSC–2019–0014]

Safety Standard for Gates and Enclosures

AGENCY: Consumer Product Safety Commission.

ACTION: Direct final rule.

SUMMARY: Consistent with the CPSIA’s process for updating mandatory standards for durable infant or toddler products that are based on a voluntary standard, this direct final rule updates the mandatory standard for gates and enclosures to incorporate by reference to ASTM F1004–22.

DATES: The rule is effective on January 21, 2023, unless CPSC receives a significant adverse comment by December 14, 2022. If CPSC receives such a comment, it will publish a notification in the **Federal Register**, withdrawing this direct final rule before its effective date. The incorporation by reference of the publication listed in this rule is approved by the Director of the Federal Register as of January 21, 2023.

ADDRESSES: You can submit comments, identified by Docket No. CPSC–2019–0014, by any of the following methods:

Electronic Submissions: Submit electronic comments to the Federal eRulemaking Portal at: www.regulations.gov. Follow the instructions for submitting comments.
