Advisory Committee and Species Working Group Technical Advisor Appointments

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Nominations.

SUMMARY: NMFS is soliciting nominations to the Advisory Committee to the U.S. Section to the International Commission for the Conservation of Atlantic Tunas (ICCAT) as established by the Atlantic Tunas Convention Act (ATCA). NMFS is also soliciting nominations for technical advisors to the Advisory Committee's species working groups.

DATES: Nominations must be received by October 23, 2006.

ADDRESSES: Nominations to the Advisory Committee or for technical advisors to a species working group should be sent to Dr. William T. Hogarth, Assistant Administrator, National Marine Fisheries Service, NOAA, 1315 East-West Highway, Silver Spring, MD 20910. A copy should also be sent to Kelly Denit, Office of International Affairs, National Marine Fisheries Service, Room 12622, 1315 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Kelly Denit, 301-713-2276.

SUPPLEMENTARY INFORMATION: Section 971b of the ATCA (16 U.S.C. 971 *et seq.*) requires that an advisory committee be established that shall be composed of: (1) not less than five nor more than 20 individuals appointed by the U.S. Commissioners to ICCAT who shall select such individuals from the various groups concerned with the fisheries covered by the ICCAT Convention; and (2) the chairs (or their designees) of the New England, Mid-Atlantic, South Atlantic, Caribbean, and Gulf Fishery Management Councils. Each member of the Advisory Committee appointed under paragraph (1) shall serve for a term of two years and shall be eligible

for reappointment. Members of the Advisory Committee may attend all public meetings of the ICCAT Commission, Council, or any Panel and any other meetings to which they are invited by the ICCAT Commission, Council, or any Panel. The Advisory Committee shall be invited to attend all nonexecutive meetings of the U.S. Commissioners to ICCAT and, at such meetings, shall be given the opportunity to examine and be heard on all proposed programs of investigation, reports, recommendations, and regulations of the ICCAT Commission. Members of the Advisory Committee shall receive no compensation for such services. The Secretary of Commerce and the Secretary of State may pay the necessary travel expenses of members of the Advisory Committee.

There are currently 20 appointed Advisory Committee members. The terms of these members expire on December 31, 2006. New appointments will be made as soon as possible, but will not take effect until January 1, 2007.

Section 971b-1 of the ACTA specifies that the U.S. Commissioners may establish species working groups for the purpose of providing advice and recommendations to the U.S. Commissioners and to the Advisory Committee on matters relating to the conservation and management of any highly migratory species covered by the ICCAT Convention. Any species working group shall consist of no more than seven members of the Advisory Committee and no more than four scientific or technical personnel, as considered necessary by the Commissioners. Currently, there are four species working groups advising the Committee and the U.S. Commissioners: a Bluefin Tuna Working Group, a Swordfish Working Group, a Billfish Working Group, and a BAYS (Bigeye, Albacore, Yellowfin, and Skipjack) Tunas Working Group. Technical Advisors to the species working groups serve at the pleasure of the U.S. Commissioners; therefore, the Commissioners can choose to alter appointments at any time.

Nominations to the Advisory Committee or to a species working group should include a letter of interest and a resume or curriculum vitae. Letters of recommendation are useful but not required. Self-nominations are acceptable. When making a nomination, please clearly specify which appointment (Advisory Committee member or technical advisor to a species working group) is being sought. Requesting consideration for placement on both the Advisory Committee and a

species working group is acceptable. Those interested in a species working group technical advisor appointment should indicate which of the four working groups is preferred. Placement on the requested species working group, however, is not guaranteed.

Dated: September 11, 2006.

Marine Mammals; File No. 763-1845

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit.

SUMMARY: Notice is hereby given that the Smithsonian National Zoological Park (SNZP), 3001 Connecticut Avenue NW, Washington, DC 20008 (John Berry, Responsible Party) has been issued a permit to conduct research on Weddell seals (*Leptonychotes weddellii*) and import marine mammal specimens for scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521; and

Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213; phone (562)980-4001; fax (562)980-4018.

FOR FURTHER INFORMATION CONTACT:

Amy Sloan or Tammy Adams, (301)713-2289.

SUPPLEMENTARY INFORMATION: On May 3, 2006, notice was published in the **Federal Register** (71 FR 26073) that a request for a scientific research permit to take the species identified above had been submitted by the above-named organization. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The SNZP has been issued a permit to study maternal investment, maternal and pup diving behavior, and the onset of feeding by mother and pup Weddell seals in Antarctica. Over a 2-year period, researchers will capture mother-pup pairs and weaned pups for weighing, administering isotopes, collecting blood and milk samples, and attachment/removal of time-depth recorders and radio transmitters. Samples from Weddell seals and from non-endangered marine mammals may be imported into the U.S. and re-exported for scientific analysis over a 5-year period.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.
