

these caucuses would unacceptably impair the ability of the Committee to reach a consensus on the matters being considered and would disrupt substantially the disposition of its business. Therefore, these caucuses will be closed to the public because of a determination made by the Director of the U.S. Office of Personnel Management under the provisions of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and 5 U.S.C. 552b(c)(9)(B). These caucuses may, depending on the issues involved, constitute a substantial portion of a meeting.

Annually, the Chair compiles a report of pay issues discussed and concluded recommendations. These reports are available to the public, upon written request to the Committee.

The public is invited to submit material in writing to the Chair on Federal Wage System pay matters felt to be deserving of the Committee's attention. Additional information on these meetings may be obtained by contacting the Committee at U.S. Office of Personnel Management, Federal Prevailing Rate Advisory Committee, Room 5H27, 1900 E Street, NW., Washington, DC 20415, (202) 606-9400.

U.S. Office of Personnel Management.

**Sheldon Friedman,**

*Chairman, Federal Prevailing Rate Advisory Committee.*

## POSTAL SERVICE

### Board of Governors; Sunshine Act Meeting

**DATE AND TIME:** Tuesday, December 7, 2010, at 9 a.m.

**PLACE:** Washington, DC, at U.S. Postal Service Headquarters, 475 L'Enfant Plaza, SW.

**STATUS:** Closed.

**MATTERS TO BE CONSIDERED:** Tuesday, December 7, at 9 a.m. (Closed)

1. Financial Matters.
2. Pricing.
3. Strategic Issues.
4. Personnel Matters and Compensation Issues.
5. Governors' Executive Session—Discussion of prior agenda items and Board Governance.

**CONTACT PERSON FOR MORE INFORMATION:** Julie S. Moore, Secretary of the Board, U.S. Postal Service, 475 L'Enfant Plaza,

SW., Washington, DC 20260-1000. Telephone (202) 268-4800.

**Julie S. Moore,**

*Secretary.*

[FR Doc. 2010-30667 Filed 12-2-10; 4:15 pm]

**BILLING CODE 7710-12-P**

## OFFICE OF SCIENCE AND TECHNOLOGY POLICY

### Request for Public Comment on the Draft National Nanotechnology Initiative Strategy for Nanotechnology-Related Environmental, Health, and Safety Research

**AGENCY:** White House Office of Science and Technology Policy.

**ACTION:** Notice: Request for Public Comment.

**SUMMARY:** With this notice, the White House Office of Science and Technology Policy and the Nanoscale Science, Engineering, and Technology Subcommittee of the National Science and Technology Council request comments from the public regarding the draft National Nanotechnology Initiative (NNI) Strategy for Nanotechnology-Related Environmental, Health, and Safety Research (hereafter referred to as "draft NNI EHS strategy"). The draft NNI EHS strategy is posted at <http://strategy.nano.gov>. Comments of approximately one page or less in length (4,000 characters) are requested. This request will be active from December 6, 2010, to January 6, 2011.

**DATES:** Comments are invited beginning December 6, 2010, and must be received by 11:59 p.m. EST on January 6, 2011.

**ADDRESSES:** Respondents are encouraged to register online at the NNI Strategy Portal at <http://strategy.nano.gov> to post their comments (4,000 characters or less) as a response to the request for public comment. Alternatively, comments of one page in length or less may be submitted via e-mail to: [nnistrategy@ostp.gov](mailto:nnistrategy@ostp.gov). Any information you provide to us may be posted online. Therefore, do *not* send any information that might be considered proprietary, personal, sensitive, or confidential.

**Overview:** The National Nanotechnology Initiative Strategy for Nanotechnology-Related Environmental, Health, and Safety Research or "NNI EHS Strategy" helps to facilitate achievement of the National Nanotechnology Initiative vision by laying out guidance for agency leaders, program managers, and the research community regarding planning and

implementation of nanotechnology EHS R&D investments and activities.

The NNI is a U.S. Government R&D program of 25 agencies working together toward the common challenging vision of a future in which the ability to understand and control matter at the nanoscale leads to a revolution in technology and industry that benefits society. The combined, coordinated efforts of these agencies have accelerated discovery, development, and deployment of nanotechnology towards agency missions and the broader national interest. Established in 2001, the NNI involves nanotechnology-related activities by the 25 member agencies, 15 of which have requested budgets for nanotechnology R&D for Fiscal Year (FY) 2011.

The NNI is managed within the framework of the National Science and Technology Council (NSTC), the Cabinet-level council that coordinates science and technology across the Federal government and interfaces with other sectors. The Nanoscale Science, Engineering, and Technology (NSET) Subcommittee of the NSTC coordinates planning, budgeting, program implementation, and review of the NNI. The NSET Subcommittee is composed of senior representatives from agencies participating in the NNI (<http://www.nano.gov>). The NSET Subcommittee and its Nanotechnology Environmental and Health Implications (NEHI) Working Group provide leadership in establishing the NNI environmental, health, and safety research agenda and in communicating data and information related to the environmental and health aspects of nanotechnology between NNI agencies and with the public. NNI activities support the development of the new tools and methods required for the research that will enable risk analysis and assist in regulatory decision-making.

The NSET Subcommittee has solicited multiple streams of input to inform the development of this latest NNI EHS Strategy. Independent reviews of the NNI by the President's Council of Advisors on Science and Technology and the National Research Council of the National Academies have made specific recommendations for improving the NNI EHS strategy. A series of four NNI workshops took place in 2009-2010 to solicit input for this strategy: 1. Human & Environmental Exposure Assessment of Nanomaterials (details at <http://www.nano.gov/html/meetings/exposure/>), 2. Nanomaterials and the Environment & Instrumentation, Metrology, and Analytical Methods (details at <http://www.nano.gov/html/>)
