

## Incorporation by Reference

Class E airspace areas are published in paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024, and effective September 15, 2024. These amendments will be published in the next update to FAA Order JO 7400.11. FAA Order JO 7400.11J is publicly available as listed in the **ADDRESSES** section of this document. FAA Order JO 7400.11J lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

## The Rule

This action amends 14 CFR part 71 by modifying the Class E airspace extending upward from 700 feet or more above the surface at Blanding Municipal Airport, Blanding, UT.

Class E airspace extending upward from 700 feet is established within a 6.2-mile radius of the airport excluding that airspace beyond 3.1 miles west of and parallel to the runway, and is extended 11.9 miles to the northeast to contain departing IFR operations until they reach 1,200 feet above the surface. Class E airspace extending upward from 1,200 feet above the surface is removed due to redundancy, as containment is provided by Denver Class E En Route Domestic Airspace that also extends upward from 1,200 feet above the surface.

Finally, the legal description's geographical coordinates for the airport are updated to match the FAA's database.

## Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

## Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Part 73

[MB Docket No. 25–14; RM–11994; DA 25–304; FR ID 288969]

### Television Broadcasting Services Monroe, Louisiana

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** This document amends the Table of TV Allotments (table) of the Federal Communications Commission's (Commission) rules by substituting channel \*29 for channel \*13 at Monroe, Louisiana in response to a Petition for Rulemaking filed by Louisiana Educational Television Authority (LETA), the licensee of noncommercial educational television PBS member station KLTM–TV, channel \*13, Monroe, Louisiana. The staff engineering analysis finds that the proposal is in compliance with the Commission's principal community coverage and technical requirements. The substitution of channel \*29 for channel \*13 in the table will not result in any loss of existing service and it will also allow LETA to remedy its known viewer reception issues on its currently authorized VHF channel.

**DATES:** Effective April 10, 2025.
