

trading practices that are disruptive of fair and equitable trading. Today's advanced notice of proposed rulemaking asks 18 questions, the answers to which will inform moving forward with a proposed rule on this issue. Commission staff also will lead a roundtable on December 2 on disruptive trading practices. I am particularly interested in hearing from the public on algorithmic trading. In addition to the public comments and the December 2 roundtable, we will benefit from the input of the Joint CFTC–SEC Advisory Committee on Emerging Regulatory Issues.

Determinations of Attainment by the Applicable Attainment Date for the Hayden, Nogales, Paul Spur/Douglas PM₁₀ Nonattainment Areas, Arizona

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to determine that the Hayden, Nogales, and Paul Spur/Douglas nonattainment areas in Arizona attained the National Ambient Air Quality Standard (NAAQS) for particulate matter with an aerodynamic diameter of less than or equal to a nominal ten micrometers (PM₁₀) by the applicable attainment date of December 31, 1994. On the basis of this proposed determination, EPA concludes that these three “moderate” nonattainment areas are not subject to reclassification by operation of law to “serious.” Lastly, on the basis of a review of more recent ambient monitoring data, EPA also is proposing to determine that the Hayden, Nogales and Paul Spur/Douglas nonattainment areas are not currently attaining the PM₁₀ standard.

DATES: Comments must be received on or before December 2, 2010.

ADDRESSES: Submit comments, identified by docket number EPA–R09–OAR–2010–0718, by one of the following methods:

SUPPLEMENTARY INFORMATION: For further information, please see the direct final action, of the same title, which is located in the Rules section of this **Federal Register**. EPA is determining that the Hayden, Nogales, and Paul Spur/Douglas nonattainment area attained the PM₁₀ standard by the applicable attainment date (1994), and that the three areas are not currently attaining the standard, as a direct final rule without prior proposal because EPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the determinations is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule.

If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if we receive adverse comment on one of the determinations, EPA may adopt as final those determinations that are not the subject of an adverse comment.

Dated: October 25, 2010.

Regional Administrator, EPA Region IX.
