

704A33-651-190), installed, certificated in any category.

Note 1: This AD applies to each helicopter identified in the preceding applicability provision, regardless of whether it has been otherwise modified, altered, or repaired in the area subject to the requirements of this AD. For helicopters that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (d) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated, unless accomplished previously.

To prevent seizure of the bearing, loss of tail rotor effectiveness, and subsequent loss of control of the helicopter, accomplish the following:

(a) For Model AS350B3 and AS355N helicopters, replace each bearing with an airworthy bearing as follows:

(1) Within 30 hours time-in-service (TIS) for each bearing that has 270 or more hours TIS as of the effective date of this AD.

(2) Before reaching 300 hours TIS for each bearing that has less than 270 hours TIS as of the effective date of this AD.

(3) Thereafter, replace each bearing at intervals not to exceed 300 hours TIS.

(b) For all other Model AS350 or AS355 helicopters, replace each bearing with an airworthy bearing as follows:

(1) Within 50 hours TIS for each bearing that has 1150 hours or more TIS as of the effective date of this AD.

(2) Before reaching 1200 hours TIS for each bearing that has less than 1150 hours TIS as of the effective date of this AD.

(3) Thereafter, replace each bearing at intervals not to exceed 1200 hours TIS.

Note 2: Eurocopter France Alert Telex Nos. 01.00.46 and 01.00.48, both dated February 22, 2001, pertain to the subject of this AD.

(c) When transferring a bearing from one model helicopter to another (refer to the equipment log card), adhere to the transfer rules described in the applicable master servicing recommendations. Remove each bearing from service at or before the service life limits given in paragraphs (a)(3) and (b)(3) of this AD.

Note 3: The Master Servicing Recommendations for the affected helicopters, Chapter 05.99, pertain to the subject of this AD.

(d) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Regulations Group, Rotorcraft Directorate, FAA. Operators shall submit their requests through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Regulations Group.

Note 4: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Regulations Group.

(e) Special flight permits may be issued in accordance with 14 CFR 21.197 and 21.199 to operate the helicopter to a location where the requirements of this AD can be accomplished.

Note 5: The subject of this AD is addressed in Direction Generale De L'Aviation Civile (France) AD Nos. 2001-073-061(A) and 2001-074-081(A), both dated March 21, 2001.

(f) This amendment becomes effective on April 4, 2002.

Issued in Fort Worth, Texas, on March 11, 2002.

David A. Downey,

Manager, Rotorcraft Directorate, Aircraft Certification Service.

Payment of Duties on Certain Steel Products

AGENCY: Customs Service, Department of the Treasury.

ACTION: Temporary rule.

SUMMARY: This is a temporary rule that requires importers of the steel products described in the Presidential Proclamation 7529 of March 5, 2002, To Facilitate Positive Adjustment to Competition From Imports of Certain Steel Products published in the **Federal Register** (67 FR 10553) on March 7, 2002, to defer until April 19, 2002, the deposit of the estimated Customs duties described in the Proclamation on those products entered, or withdrawn from warehouse for consumption in the Customs territory of the United States on or after 12:01 a.m., EST, March 20, 2002 and up to April 4, 2002. This temporary rule implements an instruction of the President regarding the Presidential Proclamation.

EFFECTIVE DATE: This temporary rule is effective at 12:01 a.m. EST, March 20, 2002, and expires on April 20, 2002. This temporary rule applies to those steel products described in Presidential Proclamation 7529 of March 5, 2002, To Facilitate Positive Adjustment to Competition From Imports of Certain Steel Products published in the **Federal Register** (67 FR 10535) on March 7, 2002, that are entered or withdrawn from warehouse for consumption in the Customs territory of the United States on or after 12:01 a.m., EST, March 20, 2002 and up to April 4, 2002.

FOR FURTHER INFORMATION CONTACT:

Millie Gleason, Office of Field Operations (202) 927–0625.

SUPPLEMENTARY INFORMATION:**Background**

On March 5, 2002, President George W. Bush signed Presidential Proclamation 7529, a proclamation to facilitate positive adjustment to competition from imports of certain steel products. The Proclamation, which was issued under the President's authority under section 203 of the Trade Act of 1974, as amended (19 U.S.C. 2253), established increases in duty and a tariff-rate quota on imports of certain steel products. These safeguard measures were taken by the President to facilitate efforts by the domestic industry to make positive adjustment to import competition and provide greater economic and social benefits than costs. In the Proclamation, the President provides that if he determines within 30 days of the Proclamation that consultations between the United States and other World Trade Organization (WTO) members pursuant to Article 12.3 of the WTO Agreement on Safeguards have revealed a compelling reason to reduce, modify, or terminate a safeguard measure, he shall proclaim a corresponding reduction, modification, or termination of the safeguard measure.

In conjunction with the Proclamation, President Bush also sent a memorandum dated March 5, 2002, to the Secretary of the Treasury, the Secretary of Commerce, and the United States Trade Representative requiring action under section 203 of the Trade Act of 1974 (19 U.S.C. 2253). In that memorandum, the President instructed the Secretary of the Treasury, pursuant to section 505(a) of the Tariff Act of 1930 (19 U.S.C. 1505(a)), to prescribe by regulation a date no later than 45 days after the date of the memorandum at which estimated duties for the steel products described in the Proclamation that are entered or withdrawn from warehouse for consumption on or after 12:01 a.m., EST, March 20, 2002, and up to the 30th day after the signing of the memorandum shall be deposited. The purpose of this deferral of duty is to facilitate consultations between the United States and its foreign trading partners concerning the President's determination in accordance with Article 12.3 of the World Trade Organization Agreement on Safeguards.

The Proclamation and the Memorandum for the Secretary of the Treasury, the Secretary of Commerce, and the United States Trade Representative were published in the **Federal Register** (67 FR 10553, 67 FR

10593) on March 7, 2002. The effective date of the Proclamation is March 20, 2002.

This document sets forth the temporary regulation that the President instructed the Secretary of the Treasury to prescribe. It is noted that, pursuant to the regulation set forth below, only deposit of the duties required pursuant to Presidential Proclamation 7529 is deferred. The deferral of deposit of duties is not applicable to regular duties, including antidumping and countervailing duties, that are owed on the entry of products covered by the Proclamation.

Administrative Procedure Act, Regulatory Flexibility Act and Executive Order 12866

This regulation implements a direction of the President of the United States pursuant to his authority under section 203 of the Trade Act of 1974, as amended (19 U.S.C. 2253) to take all appropriate and feasible action within his power which he determines will facilitate efforts by the domestic industry to make a positive adjustment to import competition and provide greater economic and social benefits than costs. Accordingly, there is good cause that notice and public procedure are contrary to the public interest pursuant to 5 U.S.C. 553(b)(B). For the same reason, and because this temporary rule relieves importers from the obligation to deposit estimated duties, a delayed effective date is not required pursuant to 5 U.S.C. 553(d)(1) and (3). Moreover, because this temporary rule facilitates consultations between the United States and its foreign trading partners concerning the President's determination in accordance with Article 12.3 of the World Trade Organization Agreement on Safeguards, this rule involves a foreign affairs function of the United States that is exempt from notice and public procedure, as well as a delayed effective date, pursuant to 5 U.S.C. 553(a)(1).

Because no notice of proposed rulemaking is required, this temporary rule is not subject to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) Nor is this temporary rule a “significant regulatory action” for purposes of E.O. 12866.
