DEPARTMENT OF COMMERCE

Bureau of Industry and Security

Technical Advisory Committees; Notice of Recruitment of Private-Sector Members

SUMMARY: Seven Technical Advisory Committees (TACs) advise the Department of Commerce on the technical parameters for export controls applicable to dual-use commodities and technology and on the administration of those controls. The TACs are composed of representatives from industry representatives, academic leaders and U.S. Government representing diverse points of view on the concerns of the exporting community. Industry representatives are selected from firms producing a broad range of goods, technologies, and software presently controlled for national security, non-proliferation, foreign policy, and short supply reasons or that are proposed for such controls, balanced to the extent possible among large and small firms.

TAC members are appointed by the Secretary of Commerce and serve terms of not more than four consecutive years. The membership reflects the Department's commitment to attaining balance and diversity. TAC members must obtain secret-level clearances prior to appointment. These clearances are necessary so that members may be permitted access to the classified information needed to formulate recommendations to the Department of Commerce. Each TAC meets approximately four times per year. Members of the Committees will not be compensated for their services.

The seven TACs are responsible for advising the Department of Commerce on the technical parameters for export controls and the administration of those controls within the following areas: Information Systems TAC: Control List Categories 3 (electronics), 4 (computers), and 5 (telecommunications and information security); Materials TAC: Control List Category 1 (materials, chemicals, microorganisms, and toxins); Materials Processing Equipment TAC: Control List Category 2 (materials processing); Regulations and Procedures TAC: The Export Administration Regulations (EAR) and Procedures for implementing the EAR; Sensors and Instrumentation TAC: Control List

Category 6 (sensors and lasers); Transportation and Related Equipment TAC: Control List Categories 7 (navigation and avionics), 8 (marine), and 9 (propulsion systems, space vehicles, and related equipment) and Emerging Technology and Research Advisory Committee: (1) The identification of emerging technologies and research and development activities that may be of interest from a dual-use perspective; (2) the prioritization of new and existing controls to determine which are of greatest consequence to national security; (3) the potential impact of dual-use export control requirements on research activities; and (4) the threat to national security posed by the unauthorized exports of technologies.

To respond to this recruitment notice, please send a copy of your resume to Ms. Yvette Springer at Yvette.Springer@bis.doc.gov.

Deadline: This Notice of Recruitment will be open for one year from its date of publication in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Ms. Yvette Springer on (202) 482-2813.

Dated: January 11, 2012.

Yvette Springer,

Committee Liaison Officer.
