Animal and Plant Health Inspection Service

Title: Interstate Movement of Fruit from Hawaii.

OMB Control Number: 0579–0331.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. The Hawaii fruit and vegetables regulations contained in 7 CFR 318.13–1 through 318.13–25 govern, among other things, the interstate movement of fruits and vegetables from Hawaii. These regulations are necessary to prevent the spread of plant diseases and pest that occur in Hawaii but not on the mainland United States. The Animal and Plant Health Inspection Service (APHIS) revised the Hawaiian fruits and vegetables regulations to allow mangosteen, dragon fruit, melon, pods of cowpea and its relatives, breadfruit, jackfruit, and fresh drumstick tree pods to be moved interstate from Hawaii under certain conditions. APHIS will collect information using PPQ 530 and 540 forms.

Need and Use of the Information: APHIS will collect information from the forms to prevent the interstate spread of a number of destructive and economically damaging agricultural pests. If APHIS did not collect this information the effectiveness of APHIS' Hawaiian fruits and vegetables quarantine program would be severely compromised and could result in millions of dollars in damage to American agriculture.

Description of Respondents: Business or other for-profit.
