Agency Information Collection Activities: Proposed Request and Comment Request

The Social Security Administration (SSA) publishes a list of information collection packages that will require clearance by the Office of Management and Budget (OMB) in compliance with Pub. L. 104-13 effective October 1, 1995, The Paperwork Reduction Act of 1995. The information collection packages that may be included in this notice are for new information collections, revisions to OMB-approved information collections and extensions (no change) of OMB-approved information collections.

SSA is soliciting comments on the accuracy of the agency's burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility and clarity; and on ways to minimize burden on respondents, including the use of automated collection techniques or other forms of information technology. Written comments and recommendations regarding the information collection(s)

should be submitted to the OMB Desk Officer and the SSA Reports Clearance Officer. The information can be mailed and/or faxed to the individuals at the addresses and fax numbers listed below:

1. *Internet Social Security Disability Report-Child—20 CFR 404.1512 and 416.912—0960-NEW.* SSA is developing an Internet Social Security Disability Report-Child. This Internet application, I3820, will collect information about a child who is applying for disabled child's benefits. It will solicit the details of the child's condition, how the condition affects the child's day-to-day life, and his or her medical treatment sources and/or other medical sources of evidence. Respondents will provide information on the disabled child by completing a series of screens on a personal computer. The information will then be transmitted to SSA electronically. However, until such time as SSA develops an acceptable electronic signature process and implements a Disability Determination Services (DDS) electronic disability process, applicants will also print, sign and mail a text formatted summary of the answers given on I3820. They will also print, sign and mail copies of the medical release form (SSA-827). The information collected on I3820 will be used by the State DDS's to develop medical evidence and to assess the alleged disability. The respondents will be applicants for child's disability benefits who opt to file via the Internet.

Type of Request: New information collection.

Number of Respondents: 52,300.

Frequency of Response: 1

Average Burden Per Response: 2 hours.
