

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: NMFS has determined that three exempted fishing permit (EFP) applications warrant further consideration and is requesting public comment on those applications and on the Pacific Fishery Management Council's (Council) recommendations following its September 2021 meeting. The EFP applicants request an exemption from a prohibition on the use of unauthorized gear to harvest highly migratory species (HMS) under the Fishery Management Plan for U.S. West Coast Fisheries for Highly Migratory Species (HMS FMP). The purpose of this exemption is to test the effects and efficacy of using new or alternative gear types to harvest swordfish and other HMS off of the U.S. West Coast.

DATES: Comments must be submitted in writing by February 10, 2022.

ADDRESSES: You may submit comments on this document, identified by NOAA–NMFS–2021–0106, by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to <https://www.regulations.gov> and enter [NOAA–NMFS–2021–0106] in the Search box. Click on the “Comment” icon, complete the required fields, and enter or attach your comments.

• **Email:** wcr.hms@noaa.gov.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT:

Chris Fanning, NMFS, West Coast Region, 562–980–4198.

SUPPLEMENTARY INFORMATION: Under the HMS FMP, Deep-Set Buoy Gear (DSBG) and midwater snap gear are not identified as legal commercial fishing

gears. Use of these gears is currently only authorized under individual EFPs issued by NMFS upon the recommendation of the Council. At its June 2021 meeting, the Council reviewed 10 applications for HMS EFPs. The Council recommended that NMFS issue seven of the EFPs to authorize the use of DSBG and/or Deep-Set Linked Buoy Gear and that the Council consider the remaining three EFP applications (submitted by Mr. Bateman, Mr. Brown, and Mr. Perez)¹ at its September 2021 meeting.

Regarding Mr. Brown and Mr. Bateman's EFP applications, the Council recommended in September 2021 that NMFS issue a single EFP covering the activities proposed in both applications and identifying the gear-type as “midwater snap gear.” The Council further recommended that the EFP incorporate in its Terms and Conditions the protective measures described in the California Department of Fish and Wildlife Report² (but with a maximum of 150 hooks per set rather than the 75 hooks stated in the report), as well as the measures described in the Enforcement Consultant Committee Report.³

Regarding Mr. Perez's application, the Council did not take action on the portion of the application that requested authorization for fishing with DSBG and Night-Set Buoy Gear (NSBG) in selected areas in California state waters, as a Federal EFP is not applicable for activities in state waters. The Council did, however, recommend reissuance of Mr. Perez's existing EFP for activities in Federal waters, which would authorize the use of NSBG inside the U.S. Exclusive Economic Zone (EEZ). Council recommendations can be found in the September 2021 Council meeting Decision Document.⁴

At this time, NMFS is requesting public comment on the EFP applications from Mr. Bateman and Mr. Brown and the recommendations of the Council during its September 2021 meeting related to those two applications. NMFS is also requesting public comment regarding the reissuance of Mr. Perez's existing EFP. NMFS will take the Council's recommendations into consideration along with public comments on how and whether to issue the EFPs. If NMFS

issues EFPs based on the September 2021 Council recommendations, a total of five vessels could be allowed to fish with midwater snap gear, and one vessel with NSBG, inside the U.S. EEZ. Vessels fishing under an EFP would be subject to existing regulations, including measures to mitigate interactions with protected species.

NMFS will consider all public comments submitted in response to this **Federal Register** notice prior to issuance of any EFP included in this notice. Additionally, NMFS will analyze the effects of issuing the EFPs in accordance with the National Environmental Policy Act and NOAA's Administrative Order 216–6, as well as for compliance with other applicable laws, including Section 7(a)(2) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*), which requires the agency to consider whether the proposed action is likely to jeopardize the continued existence and recovery of any endangered or threatened species or result in the destruction or adverse modification of critical habitat.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 6, 2022.

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

SUPPLEMENTARY INFORMATION:

I. Background

On September 9, 2021, the President issued Executive 14043, *Executive Order on Requiring Coronavirus Disease 2019 Coronavirus Disease 2019 Vaccination for Federal Employees*, requiring the COVID-19 vaccination for all Federal employees, subject to such exceptions as required by law. On October 4, 2021, the Safer Federal Workforce Task Force (“Task Force”) issued guidance to Federal agencies regarding collecting information for medical and religious accommodations.

In order to meet the requirements of Executive Order 14043 and the Task Force recommendations, PSA is creating this system of records notice to permit the collection of information related to religious accommodations to the vaccination requirement. PSA maintains the “Employee Religious Exception Request Information System” in a secured electronic file repository. PSA is committed to providing all staff (employees, detailees, contractors, consultants, interns, applicants, and volunteers), visitors, and occupants of its facilities with a safe and healthy environment. To ensure and maintain the safety of all occupants during standard operations and public health emergencies or similar health and safety incidents, such as a pandemic, epidemic, natural disasters or national and regional emergency, PSA may develop and institute additional safety measures that require the collection of employee religious exception information from the federally mandated vaccination requirement. PSA is also committed to complying with the Federal employee COVID-19 vaccination requirement established by Executive 14043 unless the employee presents appropriate information in support of a legally-required exception.

PSA will collect religious accommodation requests for PSA staff (including employees, detailees, contractors, consultants, interns, and volunteers). Information will be collected, maintained, and disclosed in accordance with applicable law, regulations, and statutes, including, but not limited to, the authorities referenced herein. This newly established system will be included in the PSA inventory of record systems.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals’ records. The Privacy Act applies to records about individuals that are maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifier particularly assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of PSA by complying with Privacy Act

regulations at 43 CFR part 2, subpart K, and following the procedures outlined in the Records Access, Contesting Record, and Notification Procedures sections of this notice.

The Privacy Act requires all federal Executive Branch agencies to publish in the **Federal Register** a description denoting the existence and character of each system of records that the agency maintains, and the routine uses of each system. The “Employee Religious Exception Request Information System” system of records notice is published in its entirety below. In accordance with 5 U.S.C. 552a(r), PSA [through CSOSA] has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Participation

You should be aware your entire comment including your personally identifiable information, such as your address, phone number, email address, or any other personal information in your comment, may be made publicly available at any time. While you may request to withhold your personally identifiable information from public review, we cannot guarantee we will be able to do so.
