Except for existing claims, rights, and interests, including oil and gas leases that would be retained by the Secretary of the Interior, full management, jurisdiction, authority, responsibility, and liability for all activities conducted on the land would be vested in the DOE.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed action may present their views in writing to the BLM Moab Field Office Manager, at the address noted above.

Comments, including names and street addresses of respondents, and records relating to the proposed action will be available for public review during regular business hours at the BLM Moab Field Office at the address specified above. Individual respondents may request confidentiality. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal and transfer of jurisdiction. All interested persons who desire a public meeting for the purpose of being heard on the proposal must submit a written request to the BLM Moab Field Office at the address indicated above within 90 days from the date of publication of this notice. If the authorized officer determines that a public meeting will be held, a notice of the time and place will be published in the **Federal Register** at least 30 days before the scheduled date of the meeting.

There are no suitable alternatives. Rights-of-way or interagency agreements are not considered desirable or acceptable alternatives. They would not protect the BLM from the associated liability risks and they would not adequately constrain nondiscretionary uses that could adversely affect public health and safety.

All potential sites within a reasonable vicinity of the Repository were evaluated. The preferred site is strategically located adjacent to the Repository as identified by DOE as the

optimal location for the ancillary facilities.

This application will be processed in accordance with the regulations set forth in 43 CFR 2300.

Authority: 43 CFR 2310.3–1.

Dated: September 12, 2008.
