

II. Background

Section 24(c) of FIFRA (7 U.S.C. 136v(c)) authorizes States to register “additional uses of federally registered pesticides to meet special local needs.” Pursuant to FIFRA section 24(c), EPA’s regulations at 40 CFR 162.154(h) require States to notify EPA of such special local needs registrations. EPA’s regulations pertaining to such special local need registrations state that “the Administrator may disapprove, on any reasonable grounds, any state [special local needs] registration . . . Grounds for disapproval . . . include . . . [p]robable creation of unreasonable adverse effects on man or the environment by the registered use [and] failure of information submitted by the State to support the State’s decision to issue the registration under the standards established by § 162.153.” 40 CFR 162.154(a)(1). In addition, FIFRA Section 24(c)(1) precludes state SLN registrations “if registration for such use has . . . previously been denied, disapproved, or canceled by the Administrator, or voluntarily canceled by the registrant subsequent to issuance of a notice of intent to cancel because of health or environmental concerns about an ingredient contained in the pesticide product.” 40 CFR 162.152(a)(3).

III. Disapproval of Special Local Need Registrations

On March 15, 2021, EPA disapproved special local need registrations from the North Carolina Department of Agriculture and Consumer Services to extend the application cut-off dates to July 31 for over-the-top (OTT) use of the following dicamba products on dicamba-tolerant soybean and dicamba-tolerant cotton:

1. *EPA SLN No. NC200005*—XtendiMax® with Vapor Grip® Technology (EPA Reg. No. 264–1210); containing dicamba.
2. *EPA SLN No. NC210001*—Engenia® Herbicide (EPA Reg. No. 7969–472); containing dicamba.

On April 9, 2021, EPA disapproved special local need registrations from the Tennessee Department of Agriculture to extend the application cut-off date to July 30 for OTT use of the following dicamba products on dicamba-tolerant soybean:

1. *EPA SLN No. TN210001*—XtendiMax® with Vapor Grip® Technology (EPA Reg. No. 264–1210); containing dicamba.
2. *EPA SLN No. TN210002*—Engenia® Herbicide (EPA Reg. No. 7969–472); containing dicamba.

On April 23, 2021, EPA disapproved special local need registrations from the Georgia Department of Agriculture to

reduce the annual application training requirement to every other year, remove application cut-off dates and reduce buffer requirements for OTT use of the following dicamba product on dicamba-tolerant soybean and dicamba-tolerant cotton:

EPA SLN No. GA210001—XtendiMax® with Vapor Grip® Technology (EPA Reg. No. 264–1210); containing dicamba.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 8767–01–R3]

Clean Water Act: No-Discharge Zones for Vessel Sewage in Maryland and Virginia; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice—final determination; correction.

SUMMARY: The Environmental Protection Agency (EPA) is correcting a notice of final determination published on May 11, 2021. EPA determined that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels were reasonably available to support the State’s prohibition of vessel sewage discharges in thirteen waterbodies in Anne Arundel County, Maryland, but has since identified errors in the geographic coordinates that correspond to the boundaries of the no-discharge zones as described in the earlier notice. This notice simply corrects those geographic coordinate errors; it does not otherwise change EPA’s May 11, 2021 final determination. **DATES:** This correction is effective on September 13, 2021.

FOR FURTHER INFORMATION CONTACT:

Ferry Akbar Buchanan, U.S. Environmental Protection Agency—Region III. Telephone: (215) 814–2570; email address: AkbarBuchanan.Ferry@epa.gov.

SUPPLEMENTARY INFORMATION: On May 11, 2021 (86 FR 25856), EPA published a notice of final determination, “Clean Water Act: No-Discharge Zones for Vessel Sewage in Maryland and Virginia.” The notice explained EPA’s determination that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the thirteen waterbodies located in Anne Arundel County for which Maryland sought to establish a no-discharge zone for vessel sewage under Clean Water Act section 312(f)(3). The document also provided one of the geographic coordinates from an existing no-discharge zone for Perrin River, Virginia, published at 85 FR 59796 on September 23, 2020.

Need for Correction

As published, the notice of the final determination misidentified the geographic coordinates of the no-discharge zone boundaries for Bodkin Creek, Magothy and Little Magothy Rivers, Podickory Creek, Sandy Point/Mezick Pond, Severn River, Fishing Creek, and South River waterbodies. The notice explained these boundaries in narrative terms; the earlier-published geographic coordinates did not correspond to the narrative descriptions of the boundaries for which EPA made the determination. Upon identifying the errors, EPA confirmed the correct geographic coordinates with Maryland. EPA finds that there is good cause to make this correction without prior notice and opportunity to comment on the basis that notice and comment is unnecessary and would not be in the public interest. The change merely conforms numeric geographic coordinates to the clear narrative descriptions and detailed maps of the no-discharge zone boundaries that were included in Maryland’s application and upon which EPA’s approval was based. As such, this correction does not alter EPA’s earlier determination. EPA further determines that good cause exists to make the change effective upon publication, rather than delay the effective date, because the narrative boundary descriptions are clear, rendering a delayed effective date unnecessary. In addition, public interest requires prompt confirmation of the correct numeric geographic coordinates further describing the no-discharge zone boundaries.

Correction to Previously Published Table

In the **Federal Register** of May 11, 2021 (86 FR 25856), in FR Doc. 2021–09957, the information identifying the no discharge zone waterbodies and

boundaries, in the first untitled table that begins with “Waterbody Limits” column, which appears on pages 25856

through 25857, is corrected to read as follows:

Waterbody	Waterbody/Limits	Area (acres)
Stony Creek	39.1723° N, 76.5171° W to 39.1725° N, 76.5126° W	677
Rock Creek	39.1614° N, 76.5004° W to 39.1625° N, 76.4862° W	524

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS–R–308]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS’ intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (PRA), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, and to allow a second opportunity for public comment on the notice. Interested persons are invited to send comments regarding the burden estimate or any other aspect of this collection of information, including the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, the accuracy of the estimated burden, ways to enhance the quality, utility, and clarity of the information to be collected, and the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments on the collection(s) of information must be received by the OMB desk officer by *October 13, 2021*.
