The filings are accessible in the Commission's eLibrary system (<https://elibrary.ferc.gov/idmws/search/fercgensearch.asp>) by querying the docket number.

Any person desiring to intervene, to protest, or to answer a complaint in any of the above proceedings must file in accordance with Rules 211, 214, or 206 of the Commission's Regulations (18 CFR 385.211, 385.214, or 385.206) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including

landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or OPP@ferc.gov.

Dated: February 2, 2024.

Debbie-Anne A. Reese,
Acting Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP23–513–000]

Port Arthur Pipeline, LLC; Notice of Availability of the Environmental Assessment for the Proposed Louisiana Connector Pipeline Amendment

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Louisiana Connector Pipeline Amendment, proposed by Port Arthur Pipeline, LLC (PAPL) in the above-referenced docket. PAPL requests authorization to make modifications to its previously authorized Louisiana Connector Project pipeline, construction footprint, and installation methods in 38 locations. The Louisiana Connector Project was approved by the Commission on April 18, 2019, in Docket No. CP18–7–000.

The EA assesses the potential environmental effects of the construction and operation of the Louisiana Connector Pipeline Amendment in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed amendment, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The U.S. Army Corps of Engineers participated as a cooperating agency in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis.

The proposed amended facilities are specific to 38 locations in Jefferson

County, Texas and Cameron, Calcasieu, Beauregard, and Allen Parishes, Louisiana (between milepost 0 and milepost 82.5), as detailed below:

- modifications to pipeline routes, construction methods, horizontal directional drill (HDD) entry points, and additional temporary workspaces to accommodate landowner requests, reduce environmental impacts, avoid newly identified non-PAPL pipelines and new structures, and allow for safe construction access;

- shifting of pipeline permanent easements to abut other existing easements;

- addition and modification of access roads for HDD construction and inspection;

- modification of storage and staging areas to utilize areas that were recently and permanently impacted by other parties;

- modification of access roads due to obstructions and removal of access roads no longer required;

- modification to water approaches to use existing boat ramp/dock improvements;

- relocation of mainline valves to facilitate operations and maintenance, provide for safer road access, and access to power and communication facilities;

- modification of three waterbody crossings methods from open cut to an HDD as requested by the U.S. Army Corps of Engineers;

- combination, in two locations, of multiple HDDs into a single HDD to avoid an open-cut crossing and eliminate an HDD; and

- modification of HDD alignments to avoid conflicts with potential future deeper canal depths.

The Commission mailed a copy of the *Notice of Availability* of this EA to Federal, State, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the amended project area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environmental/environmental-documents>). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>), select "General Search" and enter the docket number in the "Docket Number" field, excluding the last three digits (*i.e.*, CP23–513). Be sure you have selected
