DEFENSE NUCLEAR FACILITIES SAFETY BOARD

Sunshine Act Notice

AGENCY: Defense Nuclear Facilities Safety Board.

ACTION: Notice of public meeting.

SUMMARY: Pursuant to the provisions of the Government in the Sunshine Act, 5 U.S.C. 552b, and as authorized by 42 U.S.C. 2286b, notice is hereby given of a two-part public meeting and hearing to be held by the Defense Nuclear Facilities Safety Board in Augusta, Georgia. Interested persons or groups may present comments, technical information, or data concerning safety issues related to the matters to be considered.

DATE AND TIME OF MEETING: June 16, 2011. Session I: 1 p.m.–5 p.m.; Session II: 7 p.m.–9 p.m.

PLACE: The Bell Auditorium at the Augusta Entertainment Complex, 712 Telfair Street, Augusta, GA 30901–2327.

STATUS: Open. While the Government in the Sunshine Act does not require that the scheduled discussion be conducted in a meeting, the Board has determined that an open meeting in this specific case furthers the public interests underlying both the Sunshine Act and the Board's enabling legislation.

MATTERS TO BE CONSIDERED: The Board wishes to further investigate safety matters and gather other information related to public health and safety, including that of the workers, at the Savannah River Site, particularly with respect to liquid waste processing, emergency preparedness, and nuclear materials disposition.

During Session I, the Board will receive testimony regarding liquid waste processing. The Board seeks to further understand what the Department of Energy (DOE) is currently doing to stabilize high-level waste as well as what has already been done to reduce risk in the tank farms. The Board will examine the state of emergency preparedness at the Site and will receive testimony concerning how well DOE and its contractors are prepared for events at the Site and how well the different organizations have integrated their preparations.

During Session II, the Board will receive testimony regarding nuclear materials disposition. The Board is concerned about how DOE will dispose of nuclear materials in light of the potential termination of chemical processing at H-Canyon and HB-Line. The Board will explore uncertainties in the new disposition plans and whether
