**SUPPLEMENTARY INFORMATION:**

**A. Purpose**

Standard Form (SF) 254, Architect-Engineer and Related Services Questionnaire is used by all Executive agencies to obtain uniform information about a firm's experience in architect-engineering (A-E) projects. The form is submitted annually as required by 40 U.S.C. 541-544 by firms wishing to be considered for government A-E contracts. The information obtained on this form is used to determine if a firm should be solicited for A-E projects.

The SF 330, Architect-Engineer Qualifications will replace SF 254, Architect-Engineer and Related Services Questionnaire. The SF 330 reflects current architect-engineer practices in a streamlined and updated format, and is organized into data blocks that readily support automation. The final version of the SF 330 has been published in the **Federal Register** and mandatory use is set for June 8, 2004. Therefore, it is necessary to extend this SF 254 for six months to cover this period of time.

**B. Annual Reporting Burden**

*Respondents:* 5,000.

*Responses Per Respondent:* 7.

*Total Responses:* 35,000.

*Hours Per Response:* 1.
