

Chartlet showing the MNMPARS Study Area.

Analyses will be conducted in accordance with COMDTINST 16003.2B, Marine Planning to Operate and Maintain the Marine Transportation System (MTS) and Implement National Policy. Instruction is available at https://media.defense.gov/2019/Jul/10/2002155400/-1/-1/0/CI_16003_2B.PDF.

We will publish the results of the PARS in the **Federal Register**. It is possible that the study may validate the status quo (no routing measures) and conclude that no changes are necessary. It is also possible that the study may recommend one or more changes to address navigational safety and the efficiency of vessel traffic management. The recommendations may lead to future rulemakings or appropriate international agreements.

VI. Future Actions

In Person Public Meetings: Although the Coast Guard prefers and highly encourages all comments and related material be submitted directly to the electronic docket we do understand the value that in person public meetings will add to the study. Therefore, the Coast Guard intends to hold public meetings at various locations

throughout the study area as the 2022 study process continues. For this initial comment period we ask that you make your comments directly to the docket, addressing impacts to navigation in the area of study resulting from factors such as offshore development, increased vessel traffic, changing vessel traffic patterns, weather conditions, or navigational difficulty. We anticipate that these early comments will inform us as to prevalent concerns and how best to use our limited resources when scheduling meeting locations.

Future public meetings will be announced by a notice in the **Federal Register**.

This notice is published under the authority of 5 U.S.C. 552(a).

Dated: March 22, 2022.

Rear Admiral, U.S. Coast Guard, Commander, First Coast Guard District.
