Section 220 of the Communications Act of 1934, as amended, also allows the Commission, in its discretion, to prescribe the form of any and all accounts, records, and memoranda to be kept by carriers subject to the Act, including the accounts, records, and memoranda of the movement of traffic, as well as receipts and expenditures of moneys. Carriers are required to file four summary exhibits along with the underlying data used to generate them, and must provide the depreciation factors (i.e., life, salvage, curve shape, depreciation reserve) required to verify the calculation of the carrier's depreciation expenses and rates. Mid-sized carriers are no longer required to file theoretical reserve studies. Certain price cap incumbent LECs in certain instances may request a waiver of the depreciation prescription process.

Needs and Uses: The Commission is seeking final approval of the information collection requirements that were adopted in FCC 12-44 and contained in collection 3060-0214 from the Office of Management and Budget (OMB). On April 27, 2012, the Commission released a Second Report and Order, MB Docket Nos. 00-168 and 00-44; FCC 12-44. This Order adopted information collection requirements that support the Commission's public file rules that are codified at 47 CFR 73.3526 and 73.3527. 47 CFR 73.3526 and 73.3527 require that licensees and permittees of commercial and noncommercial AM, FM and TV stations maintain a file for public inspection at its main studio or at another accessible location in its community of license. The contents of the file vary according to type of service and status. The contents include, but are not limited to, copies of certain applications tendered for filing, a statement concerning petitions to deny filed against such applications, copies of ownership reports, statements certifying compliance with filing announcements in connection with renewal applications, a list of donors supporting specific programs, and a list of community issues addressed by the station's programming.

These rules also specify the length of time, which varies by document type, that each record must be retained in the public file. The public and FCC use the data to evaluate information about the licensee's performance and to ensure that station is addressing issues concerning the community to which it is licensed to serve.

The information collection requirements consist of:

Pursuant to 47 CFR 73.1943(d), television station licensees or applicants must place the contents of its political file on the Commission's Web site on a going-forward basis. Pursuant to 47 CFR 73.3526(b), commercial television station licensees or applicants must

place the contents of their public inspection file as required by 47 CFR 73.3526(e) on the Commission's Web site, with the exception of letters and emails from the public as required by 47 CFR 73.3526(e)(9), which will be retained at the station. A station must also link to the public inspection file hosted on the Commission's Web site from the home page of its own Web site, if the station has a Web site. The Commission will automatically link the following items to the electronic version of all licensee and applicant public inspection files, to the extent that the Commission has these items electronically: authorizations, applications, contour maps; ownership reports and related materials; portions of the Equal Employment Opportunity file held by the Commission; the public and broadcasting; Children's television programming reports; and DTV transition education reports.

Pursuant to 47 CFR 73.3527(b) non-commercial educational television station licensees or applicants must place the contents of their public inspection file as required by 47 CFR 73.3527(e) on the Commission's Web site. A station must also link to the public inspection file hosted on the Commission's Web site from the home page of its own Web site, if the station has a Web site. The Commission will automatically link the following items to the electronic version of all licensee and applicant public inspection files, to the extent that the Commission has these items electronically: contour maps; ownership reports and related materials; portions of the Equal Employment Opportunity file held by the Commission; and the public and broadcasting.
