

CERTAIN FROZEN FISH FILLETS FROM  
VIETNAM

Manufacturer/Exporter	Weighted-Average Margin (Percent)
ESS .....	0.00
QVD .....	0.00
CATACO .....	80.88

**Cash Deposit Requirements**

In this case, the weighted-average dumping margins for ESS and QVD did not change as a result of correcting the errors described above. Therefore, it is not necessary for the Department to amend the cash deposit instructions already submitted to the U.S. Customs and Border Protection ("CBP") for ESS and QVD. With respect to CATACO, however, we will instruct CBP to collect antidumping duties for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption as provided for by section 751(a)(2)(C) of the Act, based on these amended final results, retroactively effective to March 24, 2008, the date of publication of the *Final Results*.

**Assessment**

Because the Department is currently enjoined from liquidation of any entries of subject merchandise exported by ESS and QVD, will not issue liquidation instructions to CBP until the conclusion of the litigation. CBP has already been instructed to liquidate CATACO's entries at the rate in effect at the time of entry.

These amended final results are published in accordance with sections 751(h) and 777(i)(1) of the Act.

Dated: August 12, 2008.

**DEPARTMENT OF COMMERCE****International Trade Administration****University of Connecticut, et al.; Notice  
of Consolidated Decision on  
Applications for Duty-Free Entry of  
Electron Microscopes**

This is a decision consolidated pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, as amended by Pub. L. 106-36; 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Room 2104, U.S. Department of Commerce, and

Constitution Avenue, NW.,  
Washington, DC.

*Docket Number:* 08-033. Applicant: University of Connecticut, Storrs, CT 06269-3136. Instrument: Electron Microscope, Model Tecnai G<sup>2</sup> Spirit TWIN. Manufacturer: FEI Company, Czech Republic. Intended Use: See notice at 73 FR 42549, July 22, 2008.

*Docket Number:* 08-034 Applicant: Harvard Medical School, Boston, MA 02115. Instrument: Electron Microscope, Model Tecnai G<sup>2</sup> F20. Manufacturer: FEI Company, The Netherlands. Intended Use: See notice at 73 FR 42549, July 22, 2008.

*Comments:* None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as these instruments are intended to be used, was being manufactured in the United States at the time the instruments were ordered. *Reasons:* Each foreign instrument is an electron microscope and is intended for research or scientific educational uses requiring an electron microscope. We know of no electron microscope, or any other instrument suited to these purposes, which was being manufactured in the United States at the time of the order of each instrument.

Dated: August 11, 2008.

BILLING CODE 3510-DS-M

**DEPARTMENT OF COMMERCE****International Trade Administration**

[A-570-875]

**Continuation of Antidumping Duty  
Order on Non-Malleable Cast Iron Pipe  
Fittings from the People's Republic of  
China**

**AGENCY:** Import Administration,  
International Trade Administration,  
Department of Commerce.

**SUMMARY:** As a result of the determinations by the Department of Commerce ("Department") and the International Trade Commission ("ITC") that revocation of the antidumping duty order on non-malleable cast iron pipe fittings ("non-malleable pipe fittings") from the People's Republic of China ("PRC") would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, the Department is publishing a notice of continuation for the antidumping duty order.

**EFFECTIVE DATE:** August 15, 2008.

**FOR FURTHER INFORMATION CONTACT:** Zev Primor or Juanita Chen, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4114 or (202) 482-1904, respectively.

**SUPPLEMENTARY INFORMATION:****Background:**

On March 3, 2008, the Department initiated and the ITC instituted sunset reviews of the antidumping duty order on non-malleable pipe fittings from the PRC pursuant to section 751(c) of the Tariff Act of 1930, as amended (the "Act"). See *Initiation of Five-year ("Sunset") Reviews*, 73 FR 11392 (March 3, 2008).

As a result of its review, the Department determined that revocation of the antidumping duty order on non-malleable pipe fittings from the PRC would likely lead to a continuation or recurrence of dumping and, therefore, notified the ITC of the magnitude of the margins likely to prevail should the order be revoked. See *Non-Malleable Cast Iron Pipe Fittings from the People's Republic of China; Final Results of the Expedited Sunset Review of the Antidumping Duty Order*, 73 FR 39656 (July 10, 2008).

On July 16, 2008, the ITC determined, pursuant to section 751(c) of the Act, that revocation of the antidumping duty order on non-malleable pipe fittings from the PRC would likely lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable future. See *Non-Malleable Cast Iron Pipe Fittings from the People's Republic of China* (Inv. No. 731-TA-990 (Review)), USITC Publication 4023 (July 2008) and 73 FR 45075 (August 1, 2008).

**Scope of the Order**

For purposes of this review, the products covered are finished and unfinished non-malleable cast iron pipe fittings with an inside diameter ranging from 1/4 inch to 6 inches, whether threaded or un-threaded, regardless of industry or proprietary specifications. The subject fittings include elbows, tees, crosses, and reducers as well as flanged fittings. These pipe fittings are also known as "cast iron pipe fittings" or "gray iron pipe fittings." These cast iron pipe fittings are normally produced to ASTM A-126 and ASME B.16.4 specifications and are threaded to ASME B1.20.1 specifications. Most building codes require that these
