

the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You may file a paper copy of your comments by mailing them to the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

Environmental Mailing List

The environmental mailing list includes federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Indian tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for Project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the Project. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed Project.

If we publish and distribute the EA, copies will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (Appendix 2).

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an "intervenor" which is an official party to the Commission's proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are in the User's Guide under the "e-filing" link on the Commission's Web site.

Additional Information

Additional information about the Project is available from the Commission's Office of External Affairs, at (866) 208-FERC or on the FERC Web site at www.ferc.gov using the "eLibrary" link. Click on the eLibrary

link, click on "General Search" and enter the docket number, excluding the last three digits, in the Docket Number field (i.e., CP12-6). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to the documents. Go to www.ferc.gov/esubscribenow.htm.

Finally, public meetings or site visits will be posted on the Commission's calendar located at www.ferc.gov/EventCalendar/EventsList.aspx along with other related information.

[Project No., 14382-000]

Black Mountain Hydro, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On April 10, 2010, Black Mountain Hydro, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Black Mountain Pumped Storage Project (Black Mountain Project or project) to be located on two artificial reservoirs created from natural depressions approximately 11 miles southeast of Yerington, in Mineral County, Nevada. The entire project would be located on federal lands managed by the Bureau of Land Management. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A 176-acre upper-reservoir having a total storage capacity of 6,040 acre-feet at a normal maximum operating elevation of 7,480 feet above mean sea level (msl); (2) a 106-acre lower-reservoir having a total storage capacity of 6,450 acre-feet at a normal maximum operating elevation of 5,520 feet above msl; (3) a 2,200-foot-long concrete-lined headrace; (4) a 7,250-foot-long concrete-lined pressure tunnel; (5) a 2,950-foot-long concrete-lined tailrace; (6) a pump-powerhouse with four 250-megawatt reversible pump-turbines; (7) a new 4.6-mile-long double-circuit 230-kilovolt (kv) transmission line running from the powerhouse to the Pacific Direct Current Intertie (PDCI); (8) a new secondary interconnection consisting of either: (i) an 18-mile-long, 230-kv transmission line running from the powerhouse to Sierra Pacific Power's Fort Churchill generating station, parallel to an existing 120-kv transmission line, or (ii) a new 18-mile-long, 230-kv transmission line running from the powerhouse to the PDCI and then parallel to the PDCI to the Fort Churchill generating station; and (9) appurtenant facilities. The water for the project would be purchased from entities holding existing water rights

and would be identified during the study phase of the permit term. The estimated annual generation of the Black Mountain Project would be 2,628 gigawatt-hours.

Applicant Contact: Mr. Mathew Shapiro, Chief Executive Officer, Gridflex Energy, LLC, 1210 W. Franklin Street, Boise, ID 83702; phone: (208) 246-9925.
