

The Aleut Corporation is identified in Public Law 108–199 as a business incorporated pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 *et seq.*). Regulations implementing the FMP appear at 50 CFR part 679.

Each year at least 14 days before harvesting pollock or processing pollock in the AI directed pollock fishery, the Aleut Corporation selects harvesting vessels and processors for participation in this fishery. The Aleut Corporation submits its selected participants to the National Marine Fisheries Service (NMFS) for approval. On approval, NMFS mails the Aleut Corporation a letter that includes a list of the approved participants. A copy of this letter must be retained on board each participating vessel and on site each shoreside processor at all times.

II. Method of Collection

The Aleut Corporation submits the participant letter to NMFS by mail.

III. Data

OMB Control Number: 0648–0513.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 1.

Estimated Time per Response: Annual Aleutian Islands Fishery Participant Letter, 5 minutes.

Estimated Total Annual Burden Hours: 1.

Estimated Total Annual Cost to Public: \$1 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: May 3, 2018.

Sarah Brabson,

NOAA PRA Clearance Officer.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Florida Fishing and Boating Survey.

OMB Control Number: 0648–xxxx.

Form Number(s): None.

Type of Request: Regular (request for a new information collection).

Number of Respondents: 4,335.

Average Hours per Response: 5 minutes.

Burden Hours: 361.

Needs and Uses: This request is for a new information collection.

The objective of the short survey will be to understand how anglers respond to changes in trip costs and fishing regulations in the Gulf of Mexico. We are conducting this survey to improve our ability to predict changes the number of fishing trips anticipated with changes in economic conditions or fishing regulations. This will improve the analysis of the economic effects of proposed changes in fishing regulations and changes in economic factors that affect the cost of fishing such as fuel prices.

The population consists of those anglers who fish in the Gulf of Mexico from Florida, including those who possess a license to fish, and those who are not required to have a license (*e.g.*, seniors). We plan to independently sample from the frame designed for the Fishing Effort Survey (FES) of the Marine Recreational Fishing Program (MRIP). Anglers will be mailed a postcard that directs them to a website to complete the survey.

Affected Public: Individuals or households.

Frequency: One time.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of

Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395–5806.

Dated: May 3, 2018.

Sarah Brabson,

NOAA PRA Clearance Officer.

RIN 0648–XG218

Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to Construction and Operation of the Liberty Drilling and Production Island, Beaufort Sea, Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for Letter of Authorization; request for comments and information.

SUMMARY: NMFS has received a request from Hilcorp Alaska, LLC (Hilcorp) for authorization to take small numbers of marine mammals incidental to the construction and operation of the Liberty Drilling and Production Island (LDPI) in Foggy Island Bay, Beaufort Sea, Alaska, over the course of five years from the date of issuance. Pursuant to regulations implementing the Marine Mammal Protection Act (MMPA), NMFS is announcing receipt of Hilcorp's request for the development and implementation of regulations governing the incidental taking of marine mammals. NMFS invites the public to provide information, suggestions, and comments on Hilcorp's application and request.

DATES: Comments and information must be received no later than June 8, 2018.

ADDRESSES: Comments on the applications should be addressed to Jolie Harrison, Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service. Physical comments should be sent to 1315 East-West Highway, Silver Spring, MD 20910 and electronic comments should be sent to ITP.Daly@noaa.gov.

Instructions: NMFS is not responsible for comments sent by any other method, to any other address or individual, or received after the end of the comment period. Comments received electronically, including all attachments, must not exceed a 25-megabyte file size. Attachments to electronic comments will be accepted in Microsoft Word or Excel or Adobe PDF file formats only. All comments received are a part of the public record and will generally be posted online at <https://www.fisheries.noaa.gov/node/23111> without change. All personal identifying information (e.g., name, address) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Jaclyn Daly, Office of Protected Resources, NMFS, (301) 427-8401. An electronic copy of the Hilcorp's application may be obtained online at <https://www.fisheries.noaa.gov/node/23111>. In case of problems accessing these documents, please call the contact listed above.

SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

An incidental take authorization shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant), and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth.

NMFS has defined "negligible impact" in 50 CFR 216.103 as an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.

The MMPA states that the term "take" means to harass, hunt, capture, kill or attempt to harass, hunt, capture, or kill any marine mammal.

Except with respect to certain activities not pertinent here, the MMPA defines "harassment" as any act of pursuit, torment, or annoyance, which (i) has the potential to injure a marine mammal or marine mammal stock in the wild (Level A harassment); or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering (Level B harassment).

Summary of Request

On April 26, 2018, NMFS received an adequate and complete application from Hilcorp requesting authorization for take of marine mammals incidental to construction, drilling, and production activities related to the construction and operation of the LDPI in Foggy Island Bay, Alaska. The requested regulations and LOA would be valid for five years from November 1, 2019 through October 31, 2024. Hilcorp plans to conduct necessary work, including impact and vibratory pile driving, ice road construction, drilling, and production to construct, install, and operate the LDPI. The proposed action may incidentally expose marine mammals occurring in the vicinity to elevated levels of underwater sound and human presence, thereby resulting in incidental take, by Level A and Level B harassment of cetaceans and pinnipeds, and potentially mortality of pinnipeds (from ice road construction) in Foggy Island Bay. Therefore, Hilcorp requests authorization to incidentally take marine mammals.

Specified Activities

Hilcorp is proposing to develop the Liberty Oil Field reservoir, located on the Outer Continental Shelf in Foggy Island Bay, Beaufort Sea, Alaska. Total recovery over an estimated field life of 15 to 20 years is predicted to be in the range of 80 to 150 million stock tank barrels of oil. To extract the oil, Hilcorp is proposing to construct a 9.3 acre artificial island (the LDPI) in 19 feet (5.8 meters) of water in Foggy Island Bay, approximately 5 miles (8 kilometers) north of the Kadleroshilik River and install supporting infrastructure (e.g., ice roads, pipeline). Ice roads would be constructed annually and begin November 2019 (execute year 1). Island construction, which requires impact and vibratory pile driving, is proposed to take place in 2020 (or execute year 2 of the project). Pile driving would primarily occur during ice-covered season; however, up to two weeks of pile driving may occur during the open-

water season. Pipeline installation is anticipated to occur in 2021 (or execute year three of the project). Drilling is proposed to occur from 2021 through 2024 (or execute years three through five). These activities have the potential to harass bowhead whales (*Balaena mysticetus*), gray whales (*Eschrichtius robustus*), beluga whales (*Delphinapterus leucas*), ringed seals (*Phoca hispida*), bearded seals (*Erignathus barbatus*), and spotted seals (*Phoca largha*). Ice road construction may also result in the mortality of ringed seals.

Information Solicited

Interested persons may submit information, suggestions, and comments concerning Hilcorp's request (see **ADDRESSES**). NMFS will consider all information, suggestions, and comments related to the request during the development of proposed regulations governing the incidental taking of marine mammals by Hilcorp, if appropriate.

Dated: May 4, 2018.

Donna S. Wieting,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*
