

Response to this RFI is voluntary. Responders are free to address any or all the above items, as well as provide additional information that they think is relevant to developing policies consistent with increased preservation and dissemination of broadly useful digital data resulting from federally funded research. Please note that the Government will not pay for response preparation or for the use of any information contained in the response.

How To Submit a Response

All comments must be submitted electronically to: digitaldata@ostp.gov.

Responses to this RFI will be accepted through January 2, 2012. You will receive an electronic confirmation acknowledging receipt of your response, but will not receive individualized feedback on any suggestions. No basis for claims against the U.S. Government shall arise as a result of a response to this request for information or from the Government's use of such information.

Inquiries

Specific questions about this RFI should be directed to the following email address: digitaldata@ostp.gov.

Form should include:

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-65678; File No. SR-ISE-2011-67]

Self-Regulatory Organizations; International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to Market Data Fees

November 3, 2011.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Exchange Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that, on October 24, 2011, the International Securities Exchange, LLC (the "Exchange" or the "ISE") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its Schedule of Fees to adopt subscription fees for the sale of a market data offering called the ISE Implied Volatility and Greeks Feed. The text of the proposed rule change is available on the Exchange's Web site <http://www.ise.com>, at the principal office of

the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

ISE proposes to amend its Schedule of Fees to adopt subscription fees for the sale of the ISE Implied Volatility and Greeks Feed. The Exchange previously submitted a proposed rule change to establish this data feed.³

ISE Implied Volatility and Greeks Feed

The ISE Implied Volatility and Greeks Feed delivers real-time implied volatilities and risk parameters for equity, index and ETF options. This information is used to track an option's price relative to changes in volatility and the underlying security's price, which affects the theoretical price of an option. The risk parameters are useful for delta neutral option execution and monitoring an option's time premium decay. The ISE Implied Volatility and Greeks Feed is also useful for investing and hedging strategies such as placing orders based on changes in levels of volatility. The ISE Implied Volatility and Greeks Feed includes real-time implied volatilities for the bid, ask and mid-point price as well as delta, gamma, vega, theta and rho for each option series. The ISE Implied Volatility and Greeks Feed is a low latency feed that produces data for the entire universe of U.S. options disseminated by the Options Price Reporting Authority (OPRA). The Exchange believes the ISE Implied Volatility and Greeks Feed provides valuable information that can help users make informed investment decisions.
