Exporters' Textile Advisory Committee; Notice of Open Meeting

A meeting of the Exporters' Textile Advisory Committee will be held on Tuesday, August 20, 2002. The meeting will be from 10 a.m. to 12:30 p.m. at the Greensboro-High Point Marriott (Airport Marriott), Greensboro, North Carolina.

The Committee provides advice and guidance to Department officials on the identification and surmounting of barriers to the expansion of textile exports, and on methods of encouraging textile firms to participate in export expansion.

The Committee functions solely as an advisory body in accordance with the provisions of the Federal Advisory Committee Act.

The meeting will be open to the public with a limited number of seats available. For further information or copies of the minutes, contact Monica Montavon, telephone: (202) 482-2257. Dated: August 7, 2002.

D. Michael Hutchinson,

Acting Chairman, Committee for Implementation of Textile Agreements.

National Oceanic and Atmospheric Administration

Federal Approval of the Indiana Coastal Management Program

AGENCY: National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Notice of the National Oceanic and Atmospheric Administration, National Ocean Service's approval of the Indiana Coastal Management Program pursuant to the Coastal Zone Management Act of 1972, as amended, 16 U.S.C. 1451 *et seq.*

SUMMARY: Notice is hereby given that the National Oceanic and Atmospheric Administration (NOAA) approved the Indiana Lake Michigan Coastal Management Program (LMCP) on August 5, 2002, pursuant to the provisions of section 306 of the Federal Coastal Zone Management Act of 1972, as amended, 16 U.S.C. 1455 (CZMA). The LMCP is described in the Indiana Coastal Management Program and Final Environmental Impact Statement (P/FEIS) published on June 21, 2002.

Indiana is the 34th state to receive Federal approval of its coastal management program. Indiana submitted a proposed coastal program to NOAA in April 2001. Upon reaching a preliminary decision that the program met the requirements of the CZMA, and in order to meet its responsibilities under the National Environmental Policy Act, NOAA published the Indian Coastal Management Program and Draft Environmental Impact Statement (P/DEIS) for public review on September 21, 2001. NOAA published the P/FEIS including public comments on the P/DEIS and responses to those comments on June 21, 2001. NOAA has also fulfilled the responsibilities under the Endangered Species Act through consultations with the U.S. Fish and Wildlife Service and the National Marine Fisheries Service. Upon completion of the 30-day review period, NOAA will prepare a Record of Decision in accordance with the requirements of 40 CFR 1502.2 of regulations to implement the National Environmental Policy Act.

The LMCP is the culmination of several years of development by the State of Indiana, in consultation with interest groups, the general public, Federal agencies, and NOAA. The LMCP consists of numerous state policies on diverse coastal management issues which are prescribed by statute and other legal mechanisms and made enforceable under state law. The LMCP will improve the decision making process for determining appropriate coastal land and water uses in light of resource consideration and increase public awareness of coastal resources and processes. The LMCP will increase long term protection of the state's coastal resources, while providing for sustainable economic development.

NOAA approval of the LMCP makes the state eligible for federal financial assistance for program administration and enhancement under sections 305, 306A, 308, 309 and 310 of the CZMA (16 U.S.C. Sec. 1455, 1455a, 1456a, and 1456b). Indiana has submitted an application for \$1,150,000 in FY 2002 Federal CZMA funds, which are available for Indiana. These funds will generally be used to assist the state in administering the various state authorities included in the LMCP, as well as be used to fund local management efforts.

NOAA approval of the LMCP also makes operational, as of the date of this **Federal Register** Notice, the CZMA federal consistency requirement with respect to the LMCP (16 U.S.C. 1456; 15 CFR part 930). Therefore, as of today, direct federal activities occurring within

or outside the Indiana coastal zone that are reasonably likely to affect any land or water use or natural resources of the Indiana coastal zone must be consistent to the maximum extent practicable with the enforceable policies of the LMCP. In addition, activities within or outside the Indiana coastal zone requiring a federal license or permit listed in the P/FEIS, and federal financial assistance to state agencies and local governments, that are reasonably likely to affect any land or water use or natural resource of the Indiana coastal zone must be consistent with the enforceable policies of the LMCP.

Chapter 5 of the P/FEIS identifies the enforceable policies of the Indian program. Chapter 11 of the P/FEIS identifies federally licensed or permitted activities subject to the federal consistency requirements. Chapter 4 of the P/FEIS, as well as the CZMA regulations at 15 CFR Part 930, provide specific procedures to be used in the Federal/State coordination process.

ADDRESSES: For further information and for a copy of the Record of Decision, please contact Diana Olinger at (301) 713-3155, Extension 149, or electronic mail at diana.olinger@noaa.gov.

[I.D. 080502J]

Gulf of Mexico Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will convene a public meeting via conference call of the Reef Fish Advisory Panel (AP) and Reef Fish Scientific and Statistical Committee (SSC).

DATES: The AP meeting will be via conference call on August 26, 2002 beginning at 10 a.m. EST. The SSC meeting will be via conference call on August 28, 2002 beginning at 10 a.m. EST.

ADDRESSES: A listening station will be available at the following locations: NMFS Southeast Regional Office, 9721 Executive Center Drive, North, St. Petersburg, FL 33702, Contact: Joyce Mochrie at 727-570-5305; NMFS Pascagoula Laboratory, 3909 Frederic Street, Pascagoula, MS 39567, Contact: Cheryl Hinkel at 228-762-4591, ext. 267.

Council address: Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301 North, Suite 1000, Tampa, FL 33619.

FOR FURTHER INFORMATION CONTACT: Peter Hood, Fishery Biologist, Gulf of Mexico Fishery Management Council; telephone: 813-228-2815.

SUPPLEMENTARY INFORMATION: The AP and SSC will be convened to review the Council's proposed Secretarial Amendment 2 to the Reef Fish Fishery Management Plan (FMP) to set greater amberjack Sustainable Fisheries Act (SFA) targets and thresholds and to set a rebuilding plan. The AP and SSC will be convened via conference call beginning at 10 a.m. EST on August 26, 2002 and August 28, 2002, respectively. The greater amberjack resource in the Gulf of Mexico was declared overfished by NMFS on February 9, 2001 based on the 2000 greater amberjack stock assessment. The results of several analyses indicated that the stock biomass was below the level needed to sustain harvest at maximum sustainable yield (MSY), with the best estimate indicating that the stock biomass was at less than half the biomass needed to sustain MSY, below the minimum level allowed under the 1998 NMFS National Standard Guidelines. However, NMFS concluded that overfishing is not currently occurring due to the recent implementation of management measures that were not reflected in the stock assessment. These measures included: (1) a reduction in the greater amberjack recreational bag limit from 3 to 1 fish (implemented 1997); (2) a commercial closed season during March, April and May (implemented 1998); and (3) partial protection of misidentified juvenile greater amberjack by establishment of a slot limit on lesser amberjack/banded rudderfish of 14 and 22 inches fork length plus an aggregate 5-fish recreational bag limit. As a result of this finding, additional measures to end overfishing are not needed, but a plan to rebuild the stock is needed.

Because NMFS has declared the stock overfished, the Council is required to rebuild the stock to a level where it is no longer considered overfished. Before a plan can be put into effect, management targets and thresholds that the stock needs to achieve must be defined. These are: definitions for maximum sustainable yield (MSY), optimum yield (OY), the minimum stock size threshold (MSST) below which a stock is considered to be overfished, the maximum fishing mortality threshold (MFMT) above which a stock is considered to be undergoing overfishing. The proposed amendment also provides alternative rebuilding plans that will rebuild the stock within 10 years or less and are based on various rebuilding strategies.

A copy of the agenda can be obtained by contacting the Council (see **ADDRESSES**).

Although non-emergency issues not contained in the agenda may come before the AP/SSC for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (MSFCMA), those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305 (c) of the MSFCMA, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

The listening station is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Anne Alford at the Council (see **ADDRESSES**) by August 19, 2002.

Dated: August 7, 2002.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
