

(1) EPA consulted with the State before developing this Notice of Intent for Partial Deletion.

(2) EPA has provided the state 30 working days for review of this action prior to publication of it today.

(3) In accordance with the criteria discussed above, EPA has determined that no further response is appropriate.

(4) The State of South Carolina, through the South Carolina Department of Health and Environmental Control has concurred with the deletion of 134-acres of the 140-acre Macalloy Corporation Superfund Site, from the NPL.

(5) Concurrently, with the publication of this Notice of Intent for Partial Deletion in the **Federal Register**, a notice is being published in a major local newspaper, The Charleston Post & Courier. The newspaper announces the 30-day public comment period concerning the Notice of Intent for Partial Deletion of the Site from the NPL.

(6) The EPA placed copies of documents supporting the proposed partial deletion in the deletion docket, made these items available for public inspection, and copying at the Site information repositories identified above.

If comments are received within the 30-day comment period on this document, EPA will evaluate and respond accordingly to the comments before making a final decision to delete the 134 acre parcel. If necessary, EPA will prepare a Responsiveness Summary to address any significant public comments received. After the public comment period, if EPA determines it is still appropriate to delete 134-acres of the 140-acre Macalloy Corporation Superfund Site, the Regional Administrator will publish a final Notice of Partial Deletion in the **Federal Register**. Public notices, public submissions and copies of the Responsiveness Summary, if prepared, will be made available to interested parties and included in the site information repositories listed above.

Deletion of a portion of a site from the NPL does not itself create, alter, or revoke any individual's rights or obligations. Deletion of a portion of a site from the NPL does not in any way alter EPA's right to take enforcement actions, as appropriate. The NPL is designed primarily for informational purposes and to assist EPA management. Section 300.425(e)(3) of the NCP states that the deletion of a site from the NPL does not preclude eligibility for future response actions, should future conditions warrant such actions.

#### IV. Basis for Partial Site Deletion

The EPA placed copies of documents supporting the proposed partial deletion in the deletion docket. The material provides explanation of EPA's rationale for the partial deletion and demonstrates how it meets the deletion criteria. This information is made available for public inspection in the docket identified above.

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule; notification of intent.

**SUMMARY:** The Environmental Protection Agency (EPA) Region 5 is issuing a Notification of Intent to Delete the Scrap Processing Co., Inc. Superfund Site (Scrap Processing Site or Site) located in Medford, Wisconsin, from the National Priorities List (NPL) and requests public comments on this proposed action. The NPL, promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Wisconsin, through the Wisconsin Department of Natural Resources (WDNR), have determined

that all appropriate response actions under CERCLA, other than operation and maintenance, monitoring institutional controls, and five-year reviews, have been completed at the Scrap Processing Site. However, this deletion does not preclude future actions under Superfund.
