

and scientific ability are highly regarded by his professional peers. The evidence presented supports the conclusion that the conduct upon which Mr. Islam's debarment was based is unlikely to recur. For these reasons, the agency finds that termination of Mr. Islam's debarment serves the interest of justice and will not pose a threat to the integrity of the drug approval process. FDA's analysis in reaching this conclusion is contained in the docket.

Under section 306(d)(4)(D)(ii) of the act, the period of debarment of an individual who qualifies for special termination may be limited to less than permanent but to no less than 1 year. Mr. Islam's period of debarment has lasted more than 1 year. Accordingly, the Associate Commissioner for Regulatory Affairs, under section 306(d)(4) of the act and under authority delegated to him (21 CFR 5.20), finds that Amirul Islam's application for special termination of debarment should be granted, and that the period of debarment should terminate immediately, thereby allowing him to provide services in any capacity to a person with an approved or pending drug product application. The Associate Commissioner for Regulatory Affairs further finds that because Mr. Islam has waived his right to a hearing, and the agency is granting Mr. Islam's application, an informal hearing under section 306(d)(4)(C) of the act is unnecessary.

As a result of the foregoing findings, Amirul Islam's debarment is terminated effective October 9, 2003 (21 U.S.C. 335a(d)(4)(C) and (d)(4)(D)).

Dated: October 1, 2003.

John Marzilli,

Acting Associate Commissioner for Regulatory Affairs.
