FOR FURTHER INFORMATION CONTACT: Selina Khan of the International Bureau at 202–418–7282.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Public Notice* in IB Docket No. 95–59, DA0 01–2322 (released October 5, 2001).

In March of 1996, the Commission released the Report and Order and Further Notice of Proposed Rulemaking, *Preemption of Local Zoning Regulation of Satellite Earth Stations*, IB Docket No. 95–59, 61 FR 10896 (March 18, 1996) (*1996 Antenna Order*). In this Report and Order, the Commission, among other things, amended, 25.104, 47 CFR 25.104 by creating a rebuttable presumption that local regulations that impose restrictions affecting the installation, use and maintenance of satellite earth station antennas one meter or less in any area or two meters or less in commercial or industrial areas were unreasonable and would be preempted. § 25.104 was subsequently further amended by the Report and Order, *Preemption of local Zoning Regulation of Satellite Earth Stations*, IB Docket No. 95–59, and Implementation of Section 207 of the Telecommunications Act of 1996. Restrictions on Over-the-Air Reception Devices: Television Broadcast Service and Multichannel Multipoint Distribution Service, CS Docket No. 96–83, 61 FR 46557 (September 4, 1996) (*OTARD Order*) to eliminate provisions regarding satellite antennas that are one meter or smaller and used to receive video programming. Such antennas are covered by 47 CFR 1.4000 (OTARD Rule).

Nine petitions for reconsideration of the 1996 Antenna Order were filed requesting that the Commission revise certain aspects of § 25.104, 47 CFR 25.104. Because many of these petitions were filed some time ago, the passage of time and intervening developments may have rendered the records developed for those petitions stale. Moreover, some

issues raised in petitions for reconsideration may have become moot or irrelevant in light of intervening events, including Commission amendment of § 1.4000, 47 CFR 1.4000, to apply to antennas used to transmit as well as receive both video and non-video services.¹

For these reasons, the International Bureau requests that parties that filed petitions for reconsideration concerning § 25.104 following the release of the 1996 Antenna Order identify issues from that order that remain unresolved now and supplement those petitions, in writing, to indicate which findings and rules they still wish to be reconsidered. To the extent that intervening events have materially altered the circumstances surrounding filed petitions or the relief sought by filing parties, those entities may refresh the record with new information or arguments related to their original filings that they believe to be relevant to the issues. The previously filed petitions will be deemed withdrawn and will be dismissed if parties do not indicate in writing an intent to pursue their respective petitions for reconsideration. The refreshed record in the § 25.104 proceeding will enable the Commission to undertake appropriate and expedited reconsideration of its rules. The OTARD Order and the OTARD Rule are not the subject of this Public Notice inviting petitions for reconsideration.

Procedural Matters

Pursuant to §§ 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415, and 1.419, interested parties may file Supplemental Comments, limited to the issues addressed in this *Public Notice*, no later than November 21, 2001. Supplemental Reply Comments must be filed no later than December 3, 2001. In completing the transmittal screen, parties responding should include their full name, mailing address, and the

applicable docket number, IB Docket 95–59. Parties who choose to file by paper must file an original and four copies of each filing. If more than one docket or rulemaking appear in the caption of this proceeding, commenters must submit two additional copies for each additional docket or rulemaking number. All filings must be sent to the Commission's Secretary, Magalie Roman Salas, Office of the Secretary, Federal Communications Commission, 445 12th St., SW., Rm. TW–A325, Washington, DC 20554. One copy of all comments should also be sent to the Commission's copy contractor. In the *Part 100 Notice*, the Commission presented an Initial Regulatory Flexibility Analysis,³ as required by the Regulatory Flexibility Act (RFA).⁴ If commenters believe that the proposals discussed in this Public Notice require additional RFA analysis, they should include a discussion of these issues in their Supplemental Comments.

For *ex parte* purposes, this proceeding continues to be a “permit-but-disclose” proceeding, in accordance with § 1.1200(a) of the Commission's rules, 47 CFR 1.1200(a) and is subject to the requirements set forth in § 1.1206(b) of the Commission's rules, 47 CFR 1.1206(b).

Agency for Healthcare Research and Quality

Public Comment on AHRQ's Evidence-based Practice Program

AGENCY: The Agency for Healthcare Research and Quality (AHRQ), DHHS.

ACTION: Request for public comments.

SUMMARY: AHRQ will issue a Request for Proposals (RFP) in December 2001, to continue its Evidence-based Practice Centers Program (EPC Program). Prior to release of the RFP, AHRQ invites comments from interested parties about the EPC Program with respect to: (a) What has worked well; (b) What has not worked well; (c) What changes and improvements could be made.

AHRQ also is interested in suggestions about new opportunities. For example, what steps might AHRQ take to encourage more healthcare organizations and other relevant groups to translate EPC evidence reports into

clinical practice guidelines? What steps might AHRQ take to expand the number of performance measures, educational curricula, and other quality enhancement tools derived from EPC evidence reports? How might AHRQ better track implementation of the evidence-based tools and measures derived from EPC evidence reports, that impact on patient outcomes and quality of care? Are there information technology systems that AHRQ might utilize to broaden clinician access to and use of EPC products?

DATES: To be considered for incorporation in the planned RFP, comments must be received by Friday, November 9, 2001. Comments should be sent to Jacqueline Besteman via e-mail (preferred) jbestema@ahrq.gov; or fax number: 301-594-4027.

SUPPLEMENTARY INFORMATION:

Background

AHRQ is the lead Federal agency for enhancing the quality, appropriateness, and effectiveness of healthcare services and access to such services. In carrying out this mission, AHRQ conducts and funds research that develops and presents evidence-based information on healthcare outcomes, quality, cost, use and access. Included in AHRQ's legislative mandate is support of syntheses and wide-spread dissemination of scientific evidence, including dissemination of methods or systems for rating the strength of scientific evidence. These research findings and syntheses assist providers, clinicians, payers, patients, and policymakers in making evidence-based decisions regarding the quality and effectiveness of health care.

In June 1997, AHRQ established the Evidence-based Practice Center Program (EPC Program) to better respond to significant changes within the health care industry. AHRQ became a science partner with private and public-sector organizations in their efforts to improve the quality, effectiveness and appropriateness of clinical practice. AHRQ awarded 5-year contracts to 12 institutions and designated them as Evidence-based Practice Centers (EPCs). Since 1997, the EPCs have conducted more than 80 systematic reviews and analyses of scientific literature on a wide spectrum of topics, incorporating
