[Public Notice 4056]

### Bureau of Educational and Cultural Affairs Request for Grant Proposals: Educational Advising in Mexico City

**SUMMARY:** The Educational Information and Resources Branch of the Bureau of Educational and Cultural Affairs (ECA) announces an open competition to conduct educational advising in Mexico City about post-secondary educational opportunities in the U.S. Public and private non-profit organizations meeting the provisions described in Internal Revenue Code section 26 U.S.C. 501(c)(3) may submit proposals for administering educational advising activities in Mexico City, Mexico. The educational advising effort in Mexico City would be part of the network of over 400 Department of State-affiliated advising centers worldwide. These centers provide comprehensive and unbiased information and guidance to all interested students and scholars about accredited study opportunities in the U.S.

#### Program Information

##### Overview

The size of the university population in Mexico City and its proximity to the U.S. make it a critical location for providing accurate, unbiased information about how to gain access to educational opportunities in the U.S. Services provided by the center must include group and/or individual advising informational sessions. The advising center should provide accurate

information and advising on the following topics: U.S. colleges, universities, and other accredited higher education institutions; the application process to U.S. universities; majors and fields of study; testing requirements; life in the U.S.; scholarship programs and financial aid; and pre-departure orientation. Advisers will be eligible for training opportunities sponsored by the Bureau, which will also provide a limited selection of reference books and materials to the center.

The proposal should describe in detail the center's location, facilities (including the size and capacity of its public spaces) and hours of operation, staffing pattern (including percentage of time each employee will devote to advising activities, and a description of their functions and responsibilities), an estimated budget for the office, and information delineating the services that will be provided by the center. The center should be capable of serving approximately 4,000 or more client inquiries per month, including visits, emails, faxes, and phone calls. The proposal should also include a description of what methods the center and its headquarters or sponsoring office will pursue to find additional sources of funding to supplement ECA funding for operating costs.

The proposal should also include information about any websites that will be developed to support the overall educational advising effort in Mexico.

In addition, the following elements should be addressed in the proposal:

#### Outreach

The center is encouraged to reach a wider and more diverse audience by organizing lectures and events outside the center. These outreach activities should provide general information about study opportunities in the U.S. and about the additional services and resources that may be obtained by visiting the advising center. Proposals should include outreach programs for the center and a detailed description of activities along with a proposed schedule of visits. Outreach activities should include emphasis on reaching diverse and younger (secondary school age) populations.

#### Statistics

The center must submit monthly statistics on the numbers of clients served to the Mexico, Central American, and Caribbean (MCAC) Regional Educational Advising Coordinator (REAC). The statistics should track visitors to the center, phone calls, faxes, letters, emails, and website hits. The center must also be responsive to

special requests for information from the MCAC REAC or the Bureau's Educational Information and Resources Branch. The proposal should also explain how the center will work with the Public Affairs and consular sections of the U.S. Embassy in Mexico City to collect information on the usage of the center from applicants for student visas.

#### Fund-Raising/Cost Defrayment

The proposal should explain what measures the advising center will take to generate income and to reduce operating costs. A general introduction to study opportunities in the U.S. and access to basic resources must be available to all interested persons free of charge. To help cover the costs of operation, the center may charge a fee for specialized services (such as individual advising or test preparation materials), that is reasonable by local standards to keep services accessible to the majority of the population. Examples of cost-defrayment strategies which centers are encouraged to implement include using volunteers and charging for photocopying. The proposal should clearly indicate how savings/income will be applied to the operating costs of the advising center.

#### Coordination and Communication

The Mexico City educational advising center should help to coordinate major events such as adviser training workshops and advising fairs with other educational advising centers in the region to prevent overlap and provide visiting representatives of U.S. institutions the opportunity to participate in multiple advising fairs on the same trip.

The center should participate in appropriate listservs and maintain contact with other educational advisers in MCAC and other regions.

#### Professional Standards, Guidelines and Development

Educational advisers should adhere to the OSEAS Standards of Ethical Conduct adopted by NAFSA: Association of International Educators.

#### Guidelines

Pending availability of funds, the period of this grant is October 1, 2002 to September 30, 2003. Final awards cannot be made until funds have been appropriated by Congress, allocated and committed through internal ECA Bureau procedures.

Programs must comply with J-1 visa regulations. Please refer to Solicitation Package for further information.

#### Budget Guidelines

The Bureau anticipates awarding one grant in the amount of \$70,000 to support program and administrative costs required to implement this program. The Bureau encourages applicants to provide maximum levels of cost-sharing and funding from private sources in support of its programs. Grants awarded to eligible organizations with less than four years of experience in conducting international exchange programs will be limited to \$60,000. Applicants must submit a comprehensive budget for the entire program, not to exceed \$70,000. There must be a summary budget as well as breakdowns reflecting both administrative and program budgets.

Allowable costs for the program include the following:

- (1) Salaries and benefits
- (2) Office supplies and expenses, including rent, communications, postage and shipping
- (3) Outreach and publicity costs

The Bureau will transmit these files electronically to the Public Affairs Section at the US Embassy for its review, with the goal of reducing the time it takes to get embassy comments for the Bureau's grants review process.

## Diversity, Freedom and Democracy Guidelines

Pursuant to the Bureau's authorizing legislation, programs must maintain a non-political character and should be balanced and representative of the diversity of American political, social, and cultural life. "Diversity" should be interpreted in the broadest sense and encompass differences including, but not limited to ethnicity, race, gender, religion, geographic location, socio-economic status, and physical challenges. Applicants are strongly encouraged to adhere to the advancement of this principle both in program administration and in program content. Please refer to the review criteria under the 'Support for Diversity' section for specific suggestions on incorporating diversity into the total proposal. Public Law 104-319 provides that "in carrying out programs of educational and cultural exchange in countries whose people do not fully enjoy freedom and democracy," the Bureau "shall take appropriate steps to provide opportunities for participation in such programs to human rights and democracy leaders of such countries." Public Law 106-113 requires that the governments of the countries described above do not have inappropriate

influence in the selection process. Proposals should reflect advancement of these goals in their program contents, to the full extent deemed feasible.
