

Docket Number: 21–006. Applicant: Rutgers, The State University, 65 Davidson Road, Piscataway, NJ 00854. *Instrument:* SIPAT Crystal Grower JGD–500–1 System. *Manufacturer:* Sipat Co., Ltd., Canada. *Intended Use:* The instruments will only be used for the study and basic understanding of the physical properties of oxide and/or metallic materials, various physical phenomena based on strongly correlated materials such as high temperature superconductors, Topological insulators, or Multiferroics. The growth of new materials will be conducted which have unique electric and magnetic properties using purchased crystal grower. To identify grown materials, we will employ x-ray diffraction and Laue. The high-quality crystals will be further investigated with a physical property measurement system and Magnetic property measurement system to obtain its electric and magnetic properties in varying conditions of temperature, electric and magnetic fields. *Justification for Duty-Free Entry:* According to the applicant, there are no instruments of the same general category manufactured in the United States. *Application accepted by Commissioner of Customs:* July 22, 2021.

Docket Number: 21–007. Applicant: Oregon State University, 100 Wiegand Hall, 3051 SW Campus Way, Corvallis, OR 97331. *Instrument:* Radio Frequency Heating System. *Manufacturer:* FOSHAN JIYAN HIGH FREQUENCY EQUIP CO., LTD., China. *Intended Use:* The instrument will be used for studying the phenomena of radio frequency (FR) drying of food materials and understanding the effectiveness in comparison with conventional hot-air drying method. The objectives to be studied: (a) To investigate drying efficiency of radio frequency at various operation conditions and compare with conventional hot-air drying to reduce drying time/cost and improve product quality, (b) to evaluate radio frequency heating for other application in food processing, such as pasteurization, deshelling and roasting of nuts, and drying food processing byproducts. Analytical techniques will be used to obtain quantitative data from the experiments and analyzed statistically to draw valuable conclusions. *Justification for Duty-Free Entry:* According to the applicant, there are no instruments of the same general category manufactured in the United States. *Application accepted by Commissioner of Customs:* March 10, 2021.

Docket Number: 21–008. Applicant: University of North Dakota, 266 Upson Hall II, 243 Centennial Drive, Grand Forks, ND 58202–8359. *Instrument:* Laser metal deposition system. *Manufacturer:* InssTek, South Korea. *Intended Use:* Materials to be used are elemental pure metal powders or alloyed metal powders, the research goal will be in-situ alloying of multiple different types of elemental powders (up to six) in the laser melting pool. The primary interest of materials is Inconel 625 alloy, which will be built using the in-situ alloying of commercially pure elemental powders, they are Cr, Mo, Nb, Fe, and Ni powders, and have the diameter ranging from 45 um to 150 um. After material is prepared, the energy-dispersive X-ray spectroscopy (EDS) will be used to analyze the chemical composition and elemental distribution, and the electron backscatter diffraction (EBSD) will be applied to observe the crystal orientation and grain structure. The objective is to broaden the material availability for AM and to explore its full potential. *Justification for Duty-Free Entry:* According to the applicant, there are no instruments of the same general category manufactured in the United States. *Application accepted by Commissioner of Customs:* July 8, 2021.

Docket Number: 21–009. Applicant: Yale University, BCT326, 15 Prospect Street, New Haven, CT 06511. *Instrument:* 1.25W@4K G–M Cryocooler. *Manufacturer:* CSIC PRIDE (NANJING) CRYOGENIC TECHNOLOGY CO., China. *Intended Use:* The instrument will be used to research on superconducting films synthesized in our lab. These phenomena can only be brought to life when cooled to cryogenic temperatures created with liquid helium. The transition temperature (T_c) and magnetic susceptibility of our superconductor samples from the resistive normal state to the zero-resistance superconducting states will be measured. The instrument would slowly cool the sample to low temperature ($4\text{ K} = -269\text{ }^\circ\text{C}$) and measure its resistance and magnetic susceptibility at the same time to find the transition temperature T_c . This cryocooler will help to cool our sample from room temperature to 4 K, which is $269\text{ }^\circ\text{C}$ below the freezing point in a controlled way. The cooling power required here is essential to ensure that we can reach and maintain at 4 K temperature. The small formfactor and vacuum-compatible design is also required for compatibility reasons. *Justification for Duty-Free Entry:* According to the applicant, there are no instruments of the same general

category manufactured in the United States. *Application accepted by Commissioner of Customs:* July 8, 2021.

Dated: September 22, 2021.

Richard Herring,

Director, Subsidies Enforcement, Enforcement and Compliance.

Certain Cold-Rolled Steel Flat Products of Brazil: Postponement of the Expedited Sunset Review of the Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Applicable September 28, 2021.

FOR FURTHER INFORMATION CONTACT: Alex Wood, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1959.

SUPPLEMENTARY INFORMATION:

Background

On June 1, 2021, the Department of Commerce (Commerce) initiated the first sunset review of the countervailing duty (CVD) order on certain cold-rolled steel products (CRS) from Brazil, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).¹ Within the deadline specified in 19 CFR 351.218(d)(1)(i), Commerce received notices of intent to participate in the sunset review on behalf of Cleveland-Cliffs Inc., Nucor Corporation, Steel Dynamics Inc., and United States Steel Corporation (collectively, domestic interested parties).² Each claimed interested party status under section 771(9)(C) of the Act as a producer of a domestic like product. Commerce received a timely substantive response from these domestic interested parties.³ We also received a substantive response

¹ See *Initiation of Five-Year (Sunset) Reviews*, 86 FR 29239 (June 1, 2021).

² See Cleveland-Cliffs Inc.'s Letter, "Notice of Intent to Participate in Sunset Review," dated June 14, 2021; Nucor Corporation's Letter, "Notice of Intent to Participate in Sunset Review," dated June 16, 2021; United States Steel Corporation's Letter, "Notice of Intent to Participate," dated June 16, 2021; and Steel Dynamic Inc.'s Letter, "Notice of Intent to Participate," dated June 16, 2021.

³ See Domestic Interested Parties' Letter, "Domestic Industry's Substantive Response to Notice of Initiation," dated July 1, 2021.

from the Government of Brazil (GOB), but we did not receive a substantive response from any other interested party in this proceeding.⁴ On July 22, 2021, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from respondent interested parties and that Commerce would conduct an expedited (120-day) sunset review of the order on CRS from Brazil, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2).⁵ The final results of the expedited sunset review are currently due September 29, 2021.

Postponement of Expedited Sunset Review

Section 751(c)(3)(B) of the Act provides that Commerce may issue, without further investigation, a final determination based on the facts available, in accordance with section 776 of the Act within 120 days after the initiation of the review if interested parties provide inadequate responses. However, if Commerce determines that the review is extraordinarily complicated, section 751(c)(5)(B) of the Act allows Commerce to extend the time period for making its determination by not more than 90 days.

Commerce has determined that this CVD sunset review is extraordinarily complicated pursuant to sections 751(c)(5)(C)(i) and (ii) of the Act. Specifically, due to the number and complexity of the alleged countervailable subsidy programs being reviewed, in addition to the numerous arguments made by parties in their substantive responses, it is not practicable to complete the determination of this CVD sunset review within the original time limit (*i.e.*, by September 29, 2021). Therefore, in accordance with section 751(c)(5)(B) of the Act, Commerce is postponing the deadline of the determination in this sunset review to no later than 210 days after the day on which this sunset review was initiated, *i.e.*, December 28, 2021.

This notice is issued and published in accordance with sections 751(c)(5)(B) and (C) of the Act.

Dated: September 22, 2021.

Christian Marsh,

Acting Assistant Secretary for Enforcement and Compliance.

Certain Corrosion-Resistant Steel Products From Italy: Final Results of the Expedited First Sunset Review of the Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) finds that revocation of the countervailing duty (CVD) order on certain corrosion-resistant steel products (corrosion-resistant steel) from Italy would be likely to lead to continuation or recurrence of countervailing subsidies at the levels indicated in the “Final Results of Sunset Review” section of this notice.

DATES: Applicable September 28, 2021.

FOR FURTHER INFORMATION CONTACT: Robert Scully, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-0572.

SUPPLEMENTARY INFORMATION:

Background

On July 25, 2016, Commerce published in the **Federal Register** the CVD order on corrosion-resistant steel from Italy.¹ On June 1, 2021, Commerce published the notice of initiation of the first sunset review of the *Order*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² On June 14 and 16, 2021, Commerce received timely filed notices of intent to participate from Cleveland-Cliffs, Inc., Nucor Corporation, Steel Dynamics Inc., California Steel Industries, and U.S. Steel Corporation (collectively, the domestic interested parties), within the deadline specified in 19 CFR 351.218(d)(1)(i).³ The domestic

interested parties claimed interested party status under section 771(9)(C) of the Act as producers of the domestic like product in the United States.

On July 1, 2021, Commerce received an adequate substantive response from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).⁴ We received no substantive responses from any other interested party, including the Government of Italy, nor was a hearing requested. On July 22, 2021, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from respondent interested parties.⁵ As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(B)–(C), Commerce conducted an expedited (120-day) sunset review of the *Order*.

Scope of the Order

The products covered by this order are certain corrosion-resistant steel products. For a complete description of the scope of the *Order*, see Appendix I.

Analysis of Comments Received

All issues raised in this sunset review are addressed in the accompanying Issues and Decision Memorandum,⁶ which is hereby adopted by this notice. The issues discussed in the Issues and Decision Memorandum are listed in Appendix II. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed
