Separate poverty guideline figures for Alaska and Hawaii reflect Office of Economic Opportunity administrative practice beginning in the 1966–1970 period. (Note that the Census Bureau poverty thresholds—the version of the poverty measure used for statistical purposes—have never had separate figures for Alaska and Hawaii.) The poverty guidelines are not defined for Puerto Rico or other outlying jurisdictions. In cases in which a Federal program using the poverty guidelines serves any of those jurisdictions, the Federal office that

administers the program is generally responsible for deciding whether to use the contiguous-states-and-DC guidelines for those jurisdictions or to follow some other procedure.

Due to confusing legislative language dating back to 1972, the poverty guidelines sometimes have been mistakenly referred to as the “OMB” (Office of Management and Budget) poverty guidelines or poverty line. In fact, OMB has never issued the guidelines; the guidelines are issued each year by the Department of Health and Human Services. The poverty guidelines may be formally referenced as “the poverty guidelines updated periodically in the **Federal Register** by the U.S. Department of Health and Human Services under the authority of 42 U.S.C. 9902(2).”

Some federal programs use a percentage multiple of the guidelines (for example, 125 percent or 185 percent of the guidelines), as noted in relevant authorizing legislation or program regulations. Non-Federal organizations that use the poverty guidelines under their own authority in non-Federally-funded activities also may choose to use a percentage multiple of the guidelines.

The poverty guidelines do not make a distinction between farm and non-farm families, or between aged and non-aged units. (Only the Census Bureau poverty thresholds have separate figures for aged and non-aged one-person and two-person units.)

This notice does not provide definitions of such terms as “income” or “family” as there is considerable variation of these terms among programs that use the poverty guidelines. The legislation or regulations governing each program define these terms and determine how the program applies the poverty guidelines. In cases where legislation or regulations do not establish these definitions, the entity that administers or funds the program is responsible to define such terms as “income” and “family.” Therefore, questions such as net or gross income, counted or excluded income, or household size should be directed to the entity that administers or funds the program.

**AGENCY:** U.S. Immigration and Customs Enforcement (ICE); Department of Homeland Security (DHS).

**SUMMARY:** This notice announces that the Secretary of Homeland Security (Secretary) is amending the DHS STEM Designated Degree Program List by adding 22 qualifying fields of study and a corresponding Department of Education Classification of Instructional Programs (CIP) code for each. The list is used to determine whether a degree obtained by certain F-1 nonimmigrant students following the completion of a program of study qualifies as a science, technology, engineering, or mathematics (STEM) degree as determined by DHS, for the F-1 student to be eligible to apply for a 24-month extension of their post-completion optional practical training (OPT).

**DATES:** DHS adopts the list announced in this notice as of January 21, 2022.

#### SUPPLEMENTARY INFORMATION:

#### What action is DHS taking under this notice?

The Department of Homeland Security (DHS) is updating the list of STEM fields of study that fall within the regulatory definition of “STEM field.” The list, known as the DHS STEM Designated Degree Program List (“STEM list”),<sup>1</sup> is used to determine whether a degree obtained by an F-1 nonimmigrant student qualifies as a STEM degree, as required for the F-1 nonimmigrant student to be eligible to apply for a STEM OPT extension. Similar prior lists were updated through Student and Exchange Visitor Program (SEVP) Broadcast Messages in 2011<sup>2</sup> and 2012.<sup>3</sup> The current list was established in connection with a Final Rule issued in 2016. In 2021, DHS updated the list to include technical changes to CIP codes made by the Department of Education’s National Center for Education Statistics (NCES) as part of NCES’s 2020 CIP update.<sup>4</sup>

#### Why is DHS taking this action?

In 2016, DHS published a Final Rule providing a 24-month extension of OPT for F-1 nonimmigrant students who majored in a designated STEM field of study. *See* 81 FR 13039 (Mar. 11, 2016) (“*Improving and Expanding Training Opportunities for F-1 Nonimmigrant Students With STEM Degrees and Cap-Gap Relief for All Eligible F-1 Students*”) (“2016 STEM Rule”). The 2016 STEM Rule stated that DHS will continue to accept for consideration suggested additions or deletions to the STEM list and may publish updates to

the STEM list in the **Federal Register**. Since publication of the 2016 STEM Rule, DHS has received from the public 97 suggested new fields of study to add to the STEM list. DHS has not received any input from the public suggesting fields to remove. DHS is now announcing that a number of the fields of study submitted for consideration will be added to the STEM list.<sup>5</sup> Nominators may resubmit a nomination with additional supporting views and evidence at any time if their original submission was not addressed in this notice.

#### What is OPT and STEM OPT?

OPT is one type of work permission available to certain F-1 nonimmigrant students. It allows students (except those in English language training programs) to obtain real-world work experience directly related to their field of study.

The STEM OPT extension is a 24-month extension of OPT available to F-1 nonimmigrant students who have completed 12 months of OPT and received a degree in an approved STEM field of study as designated by the STEM list.

#### Who may be impacted by this notice?

This notice may impact qualifying F-1 nonimmigrant students who seek a 24-month extension of post-completion OPT.

#### Where can I find the STEM list?

The STEM list can be found in the docket for this notice and on the SEVP website.<sup>6</sup>

#### What authority does DHS have to make changes to the STEM list?

The Secretary has broad authority to administer and enforce the nation’s immigration laws. *See generally* 6 U.S.C. 202; Immigration and Nationality Act of 1952, as amended (INA), Sec. 103, 8 U.S.C. 1103. Section 101(a)(15)(F)(i) of the INA establishes the F-1 nonimmigrant classification for individuals who wish to enter the United States temporarily and solely for the purpose of pursuing a full course of study at an academic institution or accredited language training school certified by the U.S. Immigration and Customs Enforcement’s (ICE) SEVP. *See* INA Sec. 101(a)(15)(F)(i), 8 U.S.C. 1101(a)(15)(F)(i). The INA provides the
