Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington,

DC or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

National Disease Surveillance Program I—Case Reports (OMB No. 0920-0009, exp. 3/31/2010)—Revision—National Center for Zoonotic, Vector-borne, and Enteric Diseases (NCZVED), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Formal surveillance of 16 separate reportable diseases has been ongoing to meet the public demand and scientific interest in accurate, consistent, epidemiologic data. These ongoing disease reports include: Creutzfeldt-Jakob Disease (CJD), Cyclospora, Dengue, Hantavirus, Kawasaki Syndrome, Legionellosis, Lyme disease, Malaria, Plague, Q Fever, Reye Syndrome, Tickborne Rickettsial Disease, Trichinosis, Tularemia, Typhoid Fever, and Viral Hepatitis. The Active Bacterial Surveillance (ABCs) forms were removed in 2007 and were

approved as separate documents under OMB control number 0920-0802. Case report forms from state and territorial health departments enable CDC to collect demographic, clinical, and laboratory characteristics of cases of these diseases. This revision incorporates the removal of the ABCs surveillance forms and minor changes to the Malaria surveillance form.

The purpose of the proposed study is to direct epidemiologic investigations, identify and monitor trends in reemerging infectious diseases or emerging modes of transmission, to search for possible causes or sources of the diseases, and develop guidelines for prevention and treatment. The data collected will also be used to recommend target areas most in need of vaccinations for selected diseases and to determine development of drug resistance. Because of the distinct nature of each of the diseases, the number of cases reported annually is different for each. There is no cost to respondents other than their time. The estimated annualized burden for this data collection is 11,441 hours.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondent	Form	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Epidemiologist	Typhoid fever	55	6	20/60
	Viral hepatitis	55	200	25/60
	CJD	20	2	20/60
	Cyclosporiasis	55	10	15/60
	Dengue	55	182	15/60
	Hantavirus	40	3	20/60
	Kawasaki Syndrome	55	8	15/60
	Legionellosis	23	12	20/60
	Lyme Disease	52	385	10/60
	Malaria	55	20	15/60
	Plague	11	1	20/60
	Q Fever	55	1	10/60
	Reye Syndrome	50	1	20/60
	Tick-borne Rickettsia	55	18	10/60
	Trichinosis	25	1	20/60
	Tularemia	55	2	20/60

Dated: February 25, 2010.

National Institutes of Health

Proposed Collection; Comment Request; The Agricultural Health Study: A Prospective Cohort Study of Cancer and Other Disease Among Men and Women in Agriculture (NCI)

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the

National Cancer Institute (NCI), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection: Title: The Agricultural Health Study: A Prospective Cohort Study of Cancer and Other Disease Among Men and Women in Agriculture (NCI) (OMB#: 0925-0406). *Type of Information Collection Request:* Revision. *Need and Use of Information Collection:* The purpose of this information collection is to

continue and complete updating the occupational and environmental exposure information as well as medical history information for respondents enrolled in the Agriculture Health Study. This represents a request to continue and complete phase III (2005–2010) of the study. The primary objectives of the study are to determine the health effects resulting from occupational and environmental exposures in the agricultural environment. Secondary objectives include evaluating biological markers

that may be associated with agricultural exposures and risk of certain types of cancer. Questionnaire data will be collected by using computer assisted telephone interview (CATI) and in-person interview (CAPI) systems for telephone screeners and home visit interviews, respectively. Some respondents will also be asked to participate in the collection of biospecimens including blood, urine, and buccal cells (loose cells from the respondent's mouth). The findings will provide valuable information

concerning the potential link between agricultural exposures and cancer and other chronic diseases among agricultural Health Study cohort members, and this information may be generalized to the entire agricultural community. *Frequency of Response:* One or Three. *Affected Public:* Private Sector, Farms. *Type of Respondents:* Licensed pesticide applicators and their spouses. The annual reporting burden is as follows:

ESTIMATES OF HOUR BURDEN

Type of respondent	Instrument	Estimated annual number of respondents	Frequency of response	Average time per response minutes/hour	Annual burden hours
Private Applicators	CATI Screener	960	1	5/60 (0.083)	80
Private Applicators	Home Visit CAPI and Biospecimens × 1.	310	1	95/60 (1.5)	465
Private Applicators	Home Visit CAPI and Biospecimens × 3.	10	3	95/60 (1.5)	45
Private Applicators, Spouses, Commercial Applicators.	Introductory Telephone Contact and Buccal Cell.	150	1	5/60 (0.083)	13
Total		1430	603

The annualized cost to respondents is estimated at \$16,153 each year for a three-year period.

There are no capital costs, operating costs, and/or maintenance costs to report.

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact Michael Alavanja, Dr.P.H, Occupational and Environmental Epidemiology Branch,

Division of Cancer Epidemiology and Genetics, National Cancer Institute, NIH, Executive Plaza South, Room 8000, 6120 Executive Blvd., Rockville, MD 20892, or call 301–496–9093, or e-mail your request, including your address to: alavanjm@mail.nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 60 days of the date of this publication.

Dated: February 26, 2010.

Vivian Horovitch-Kelley,
NCI Project Clearance Liaison, National Institutes of Health.

Administration on Aging

Agency Information Collection Activities; Proposed Collection; Comment Request; Service; Provider Study

AGENCY: Administration on Aging, HHS.
ACTION: Notice.

SUMMARY: The Administration on Aging (AoA) is announcing an opportunity for public comment on the proposed collection of certain information by the

agency. Under the Paperwork Reduction Act of 1995 (the PRA), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments on the information collection requirements relating to Area Agency on Aging and Local Service Provider Study.

DATES: Submit written or electronic comments on the collection of information by May 3, 2010.

ADDRESSES: Submit electronic comments on the collection of information to:

jennifer.klocinski@aoa.hhs.gov.

Submit written comments on the collection of information to Administration on Aging, Office of Evaluation, Washington, DC 20201.

FOR FURTHER INFORMATION CONTACT: Jennifer Klocinski at 202–357–0146.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency request or requirements that members of the public
