4366 or toll free: (866) SAFMC-10; fax: (843) 769-4520; email: kim.iverson@ safmc.net.

SUPPLEMENTARY INFORMATION: The meeting is open to the public via webinar as it occurs. Webinar registration is required. Information regarding webinar registration is available from the Council's website at: https://safmc.net/scientific-andstatistical-committee-meeting/. The meeting agenda, briefing book materials, and online comment form will be posted to the Council's website two weeks prior to the meeting. Written comment on SSC agenda topics is to be distributed to the Committee through the Council office, similar to all other briefing materials. For this meeting, the deadline for submission of written comment is 5 p.m. EDT May 28, 2025.

The meeting agenda includes a review of the Southeast Data, Assessment, and Review (SEDAR) 92: Atlantic Blueline Tilefish Stock Assessment, the SEDAR 76 Update: South Atlantic Black Sea Bass catch level projections, and the terms of reference for the 2026 gag grouper stock assessment. The SSC will receive an update on the SEDAR process changes and conduct other business as needed. The SSC will provide guidance to staff and make recommendations for Council consideration.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the Council office (see ADDRESSES) 5 days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 et seq.

Dated: May 2, 2025.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service. [FR Doc. 2025-07969 Filed 5-6-25; 8:45 am]

Endangered and Threatened Species: Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability.

SUMMARY: Notice is hereby given that the Washington Department of Fish and Wildlife (WDFW) and Oregon Department of Fish and Wildlife (ODFW) have provided Hatchery and Genetic Management Plans (HGMPs) pursuant to the protective regulations promulgated for Pacific salmon and steelhead under the Endangered Species Act (ESA). The HGMPs include the Big Creek Chum, Washougal winter steelhead (Skamania stock), Grays River Tule conservation, and the Abernathy Tule conservation programs. This document serves to notify the public of the availability of these HGMPs for comment prior to a decision by NMFS on whether to approve the proposed hatchery programs.

DATES: Comments must be received at the appropriate address (see ADDRESSES) no later than 5:00 p.m. Pacific time on June 6, 2025. Comments received after this date may not be considered.

ADDRESSES: Written responses to the addendum should be addressed to the NMFS Sustainable Fisheries Division, 1201 NE Lloyd Blvd., Suite 1100, Portland, OR 97232. Comments may be submitted by email. The mailbox address for providing email comments is: Hatcheries.Public.Comment@ noaa.gov. Include in the subject line of the email comment the following identifier: Comments on Big Creek Chum, Washougal winter steelhead (Skamania stock), Grays River Tule conservation, and the Abernathy Tule conservation programs.

FOR FURTHER INFORMATION CONTACT:

Natasha Preston at (503) 320-4997 or by email at natasha.preston@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

The HGMPs submitted by WDFW and ODFW include the Big Creek Chum, Washougal winter steelhead (Skamania stock). Gravs River Tule conservation. and the Abernathy Tule conservation programs. The HGMPs were submitted to NMFS for review under ESA Limit 5 of the 4(d) Rule. The HGMPs describe broodstock collection, incubation, rearing, release, and monitoring and evaluation.

The Big Creek chum program was submitted by ODFW. It has a prior 4(d) authorization of producing 300k chum salmon. This HGMP is proposing a new goal of releasing 1,690,000 chum salmon. WDFW submitted the three conservation hatchery programs (Washougal winter steelhead, Grays River Tule, and Abernathy Tule), as part of the updated Mitchell Act Endangered Species Act (ESA) Section 7(a)(2) Biological Opinion and Magnuson-

Stevens Fishery Conservation and Management Act Essential Fish Habitat (EFH) Consultation (2024). All HGMPs are designed to aid in conserving their populations across the Evolutionary Significant Unit and/or Distinct Population Segment range. The programs use adaptive management procedures and the best available science to reduce adverse genetic effects and lessen competition and predation impacts typically associated with salmon and steelhead hatchery programs.

Prior to approving an HGMP under limit 5 of the 4(d) Rule, NMFS must publish notification announcing the availability of the HGMP for public

review and comment.

Authority: 16 U.S.C. 1531 et seg.; 16 U.S.C. 742a et seq.

Dated: April 30, 2025.

Kimberly Damon-Randall,

Director, Office of Protected Resources, National Marine Fisheries Service.

Fisheries of the Gulf of America; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 87 Review Workshop for Gulf brown, pink, and white shrimp.

SUMMARY: The SEDAR 87 assessment process of Gulf brown, pink, and white shrimp will consist of a Data Workshop, and a series of assessment webinars, and a Review Workshop. See

SUPPLEMENTARY INFORMATION.

DATES: The SEDAR 87 Review Workshop will be held from 1 p.m. on June 23, 2025, until 1 p.m. on June 27, 2025. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

Meeting address: The SEDAR 87 Review Workshop will be held at the Gulf Council Office, 4107 West Spruce Street, Suite 200, Tampa, FL 33607; phone: (888) 833-1844.
