**SUPPLEMENTARY INFORMATION**: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

1. *Type of Information Collection Request*: Revision of a currently approved collection without change; *Title of Information Collection*: Hospice Quality Reporting Program; *Use*: The Hospice Item Set (HIS) is a standardized, patient-level data collection tool developed specifically for use by hospices. It is currently used for the collection of quality measure data pertaining to the Hospice Quality Reporting Program (HQRP). Since April 1, 2017, hospices have been using the HIS V2.00.0 which specifies the collection of data items that support eight National Quality Forum (NQF) endorsed Quality Measures (QMs) and

an additional measure pair for hospice. All Medicare-certified hospice providers are required to submit HIS admission and discharge records to CMS for each patient admission and discharge. The HIS contains data elements that are used by the CMS to calculate these measures and also allows CMS to collect quality data from hospices in compliance with Section 3004 of the Affordable Care Act. The information collection request was revised to remove Section O of the HIS discharge assessment now that we proposed to replace it with the claims-based Hospice Visits in the Last Days of Life quality measure. *Form Number*: CMS–10390 (OMB control number: 0938–1153); *Frequency*: On Occasion; *Affected Public*: State, Local, or Tribal Governments, Private Sector (not-for-profit institutions); individuals or households; *Number of Respondents*: 4,688; *Total Annual Responses*: 1,328,417; *Total Annual Hours*: 636,312. (For policy questions regarding this collection contact Cindy Massuda at (410) 786–0652.)
