

## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

**AGENCY:** U. S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a current valid OMB control number.

1. *Type of submission, new, revision, or extension:* Revision.

2. *The title of the information collection:* 10 CFR Part 34—Licenses for Radiography and Radiation Safety Requirements for Radiographic Operations.

3. *The form number if applicable:* Not applicable.

4. *How often the collection is required:* Applications for new licenses and amendments may be submitted at any time. Applications for renewal are submitted every 10 years. Reports are submitted as events occur.

5. *Who is required or asked to report:* Applicants for and holders of specific licenses authorizing the use of licensed radioactive material for radiography.

6. *An estimate of the number of responses:* 867 (NRC: 188 [67 + 126 recordkeepers] and [Agreement States: 674 [220 + 454 recordkeepers]]).

7. *The estimated number of annual respondents:* 580 (126 NRC licensees and 454 Agreement State licensees).

8. *The number of hours needed annually to complete the requirement or request:* 243,922 hours. The NRC licensees total burden is 48,335 hours (85 reporting hrs [an average of 1.3 hours per response] plus 48,250 recordkeeping hrs [an average of 384 hours per recordkeeper]). The Agreement State licensees total burden is 195,587 hours (299 reporting hrs [an average of 1.4 hours per response] plus 195,414 recordkeeping hrs [an average of 430 hours per recordkeeper]).

9. *An indication of whether section 3507(d), Pub. L. 104-13 applies:* Not applicable.

10. *Abstract:* 10 CFR part 34 establishes radiation safety

requirements for the use of radioactive material in industrial radiography. The information in the applications, reports and records is used by the NRC staff to ensure that the health and safety of the public is protected and that licensee possession and use of source and byproduct material is in compliance with license and regulatory requirements.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC World Wide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by October 18, 2004. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

OMB Desk Officer, Office of Information and Regulatory Affairs (3150-0007), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3087.

The NRC Clearance Officer is Brenda Jo. Shelton, 301-415-7233.

Dated in Rockville, Maryland, this 8th day of September, 2004.

For the Nuclear Regulatory Commission.

**Brenda Jo. Shelton,**

*NRC Clearance Officer, Office of the Chief Information Officer.*

## NUCLEAR REGULATORY COMMISSION

**[Docket Nos. 50-331, 50-255, 50-266, 50-301, 50-282 AND 50-306]**

### Nuclear Management Company, LLC; Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed no Significant Hazards Consideration Determination, and Opportunity for A Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating License Nos. DPR-49, DPR-20, DPR-24, DPR-27, DPR-42 and DPR-60 issued to Nuclear Management Company, LLC, (the licensee) for

operation of the Duane Arnold Energy Center located in Linn County, Iowa; the Palisades Plant located in Van Buren County, Michigan; the Point Beach Nuclear Plant, Units 1 and 2, located in Town of Two Creeks, Manitowoc County, Wisconsin; and the Prairie Island Nuclear Generating Plant, Units 1 and 2, located in Goodhue County, Minnesota, respectively.

The proposed amendments allow entry into a mode or other specified condition in the applicability of a technical specification (TS), while in a condition statement and the associated required actions of the TS, provided the licensee performs a risk assessment and manages risk consistent with the program in place for complying with the requirements of Title 10 of the Code of Federal Regulations (10 CFR), Part 50, Section 50.65(a)(4). Limiting Condition for Operation (LCO) 3.0.4 exceptions in individual TSs would be eliminated, and Surveillance Requirement (SR) 3.0.4 revised to reflect the LCO 3.0.4 allowance.

This change was proposed by the industry's Technical Specification Task Force (TSTF) and is designated TSTF-359. The NRC staff issued a notice of opportunity for comment in the **Federal Register** on August 2, 2002 (67 FR 50475), on possible amendments concerning TSTF-359, including a model safety evaluation and model no significant hazards consideration (NSHC) determination, using the consolidated line item improvement process. The NRC staff subsequently issued a notice of availability of the models for referencing in license amendment applications in the **Federal Register** on April 4, 2003 (68 FR 16579). The licensee affirmed the applicability of the following NSHC determination in its application dated December 23, 2003.

Before issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment requests involve no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facilities in accordance with the proposed amendments would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a
