SUPPLEMENTARY INFORMATION: In the final rules section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) proposes to approve the State Implementation Plan (SIP) revision submitted by the state of Nebraska to address the requirements of section 110(a)(1) and (2) of the Clean Air Act (CAA) for the 2008 Lead (Pb) National Ambient Air Quality Standards (NAAQS) and the inclusion into the SIP, of Nebraska's conflict of interest provisions. Section 110(a) of the CAA requires that each state adopt and submit a SIP for the implementation, maintenance, and enforcement of each NAAQS promulgated or revised by the EPA. On October 18, 2011, the Nebraska Department of Environmental Quality (NDEQ) submitted a revision to Nebraska's SIP which describes the State's provisions for implementing, maintaining, and enforcing the standards listed above. In addition, NDEQ submitted on March 11, 2014, a request to include conflict of interest provisions into the Nebraska SIP. These revisions are necessary to properly implement, maintain and enforce the 2008 Pb NAAQS and also recognizes the state's request to include Nebraska's conflict of interest provisions into the SIP.
