BILLING CODE 6335-01-P

explore the use of the Internet for the 2020 Census as an alternative means for the public to respond to the Census. Therefore, we have established the 2010 Census Quality Survey (CQS), formerly known as the Internet Reinterview Evaluation, as a research component under the 2010 Census Program for Evaluations and Experiments (CPEX).

Projects under the 2010 CPEX will guide future census design as well as benefit other ongoing programs conducted by the Census Bureau, such as the American Community Survey.

As with previous decennial censuses dating back to 1950, the Census Bureau conducts a formal program to assess the census and experimental tests that examine methodologies, techniques, and strategies that will potentially improve the way the Census Bureau conducts the next decennial census. For experimental studies, the actual decennial census environment is required because it provides the necessary conditions to learn the true effects of new ideas within the context of the actual effects of national advertising, outreach partnerships, and other events that occur only during a census.

The 2010 CQS seeks to build on previous Internet data collection research in order to set the stage for the Internet testing cycle for the 2020 Census. The main objective is to estimate measurement errors, such as simple response variance and bias of responses from a census mail questionnaire compared to those from a census Internet questionnaire. The reinterviews will be conducted with a sample of 2010 Census mail respondents in order to provide estimates of measurement errors associated with the design and content of a self-administered census Internet questionnaire. Since the measurement error structure may differ depending on whether a respondent has only one response mode option (*i.e.* mail or Internet) versus having a choice between the two modes, we are testing both 'push' and 'choice' strategies. A sample of the 2010 Census mail questionnaire respondents will be invited to complete an Internet reinterview ('push' Internet), which has the same content as the 2010 mail questionnaire. A separate sample of the 2010 Census mail questionnaire respondents will be invited to complete a mail reinterview ('push' mail) with the same 2010 content. A third sample of the 2010 Census mail questionnaire respondents will be invited to complete a reinterview with the choice of mail or Internet modes ('choice' Internet/mail).

COMMISSION ON CIVIL RIGHTS**Sunshine Act Notice**

AGENCY: United States Commission on Civil Rights.

ACTION: Notice of meeting cancellation.

SUMMARY: On March 18, 2010 (75 FR 13076) the U.S. Commission on Civil Rights announced a business meeting to be held on Friday, March 26, 2010 at the Commission's headquarters. On Thursday, March 25, 2010, the meeting was cancelled. The decision to cancel the meeting was too close in time to the day of the meeting for the publication of a cancellation notice to appear in advance of the scheduled meeting date. The details of the cancelled meeting are:

DATE AND TIME: Friday, March 26, 2010; 11:30 a.m. EDT.

PLACE: Via Teleconference. Public Dial in: 1-800-597-7623. Conference ID # 63007474.

Meeting open to public.

DEPARTMENT OF COMMERCE**Submission for OMB Review; Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: 2010 Census Quality Survey.

Form Number(s): D-1R1.

OMB Control Number: None.

Type of Request: New collection.

Burden Hours: 43,810.

Number of Respondents: 262,857.

Average Hours per Response: 10 minutes.

Needs and Uses: As the 2010 Census nears, planning for the 2020 Census is already underway. One particular area of interest for the 2020 Census is to make the Census cost-effective and accurate. The Census Bureau will
