

Accountability Office to assess the efficacy of nonclinical suicide prevention efforts, DSPO aims to help the Services conduct a thorough evaluation of their LMS outreach efforts.

DSPO has contracted with the Center for Naval Analyses (CNA) to assist the Services in meeting the requirements set forth in DOD Instruction 6490.16 that all suicide prevention activities are developed from a relevant evidence-base and have an evaluation capability prior to implementation. CNA, in conjunction with the participating Services (*i.e.*, Air Force, Army, Navy, and Special Operations Command, propose an information collection covering LMS evaluation activities specific to the needs of each respective Service to assess the implementation, acceptability, and/or effect of their specific LMS activities and materials. Depending on the nature of the selected evaluation activities, study data will be collected via key informant (KI) interviews and/or a survey.

This FRN covers the evaluation activity specific to the Army. The intent of voluntary Army LMS Toolkit Key Personnel Baseline and Follow-up Interviews is to consult with key Army personnel to gain a better understanding of the implementation and utility of the Army's new LMS Toolkit.

The Army will use the results of the KI interviews to tailor their LMS activities, materials, messaging, training, and outreach efforts to maximize their

effectiveness with their Servicemembers and communities.

#### **POLICY JUSTIFICATION**

##### **Greece—S-70B Program Follow-On Support and Sustainment**

The Government of Greece has requested to buy follow-on support and sustainment of S-70 helicopters

including; aircraft spares; consumables, repair parts, components and accessories to support S-70B/S-70B6 aircraft; repair of S-70 type aircraft and procurement of parts to include aircraft mission system upgrades; existing radar and sonar obsolescence management; gun mount procurement; unclassified publications required for aircraft operation and maintenance (in the English language); U.S. Government and contractor technical assistance and services; expedited contractual award efforts; evaluation and tailoring solutions of technical issues; provide inputs to planning documents; integration, engineering, testing requirements, obsolescence remediation, equipment upgrades, planned product improvements, Integrated Logistic Support (ILS) management services, and Return, Repair and Reshipment of unserviceable repairable items/equipment; spare parts; Original Equipment Manufacturer (OEM) technical services; technical assistance and travel; OEM program management in the Continental U.S. (CONUS) and Greece; obsolescence driven upgrades; OEM/contractor upgrade program management; engineering analyses, studies and development/validation/test of upgrade solutions; retrofit kit procurement and subsequent installation; publications and Repair of Repairable efforts; Contractor Logistics Support to include Field Service Representative and/or Contractor provided in-service training; and other related elements of logistics and program support. The estimated total cost is \$162.07 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a NATO ally, which is an important partner for political stability and economic progress in Europe.

The proposed sale will improve Greece's capability to meet current and future threats by providing an effective combatant deterrent capability to protect maritime interests and infrastructure in support of its strategic location on NATO's southern flank. Follow-on support and sustainment of Greece's existing fleet of S-70 helicopters enhances stability and maritime security in the Eastern Mediterranean region and contribute to security and strategic objectives of NATO and the United States. Greece

contributes to NATO operations, as well as to counterterrorism and counter-piracy maritime efforts and performs invaluable Search and Rescue (SAR) functions in the region. Greece will have no difficulty absorbing this equipment and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Bethesda, MD. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any U.S. Government personnel but will require one (1) contractor representative, Full-Time Equivalent (FTE) position to Greece to continue follow-on support and sustainment to Greece's S-70B/S-70B6 helicopters.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
