[OMB Number 1117-0015]

### Agency Information Collection Activities; Proposed eCollection, eComments Requested; Extension Without Change of a Previously Approved Collection Application for Registration, Application for Registration Renewal, DEA Forms 363, 363a

**AGENCY:** Drug Enforcement Administration, Department of Justice.

**ACTION:** 30-Day notice.

**SUMMARY:** The Department of Justice (DOJ), Drug Enforcement Administration (DEA), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection was previously published in the **Federal Register**, allowing for a 60-day comment period. The burden in this 30-day notice differs from that in the previously published information collection, as that analysis was based on a proposal to remove the option of submitting a paper application. The proposed rule would mandate all applications be submitted

online; however, that rule has yet to be finalized. Therefore, DEA has returned to a burden analysis which shows both options an application can be submitted.

**DATES:** Comments are encouraged and will be accepted for 30 days until October 25, 2021.

#### FOR FURTHER INFORMATION CONTACT:

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). - Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information proposed to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other forms of information technology, e.g., permitting electronic submission of responses.
