#### SUPPLEMENTARY INFORMATION:

##### I. Background

The five draft guidance documents announced through this notice were selected in response to the USDA Office of Inspector General's (OIG) March 2010 Audit Report 01601-03-Hy: Oversight of the National Organic Program. The OIG findings identified specific areas of the NOP regulations where OIG recommended guidance be issued to strengthen oversight by ACAs and improve consistency and overall administration of the NOP. The NOP specifically developed Commingling and Contamination Prevention in Organic Production and Handling (NOP 5025) and Outdoor Access for Organic Poultry (NOP 5024) draft guidance in response to the OIG report. The OIG also identified the need for the NOP to act upon recommendations issued by the National Organic Standards Board (NOSB) from 2001 to 2010. The NOP developed The Use of Chlorine Materials in Organic Production and Handling (NOP 5026) and Compost and Vermicompost in Organic Crop Production (NOP 5021) in response to outstanding NOSB recommendations. The NOP also identified a need to develop guidance to address requests by ACAs and certified operations for clarifications on particular issues. Wild Crop Harvesting (NOP 5022) is an example of guidance being issued in response to these requests.

##### II. Significance of Guidance

These draft guidance documents are being issued in accordance with the Office of Management and Budget (OMB) Bulletin on Agency Good Guidance Practices (GGPs) (January 25, 2007, 72 FR 3432-3440).

The purpose of GGPs is to ensure that program guidance documents are developed with adequate public participation, are readily available to the public, and are not applied as binding requirements. The draft guidance, when finalized, will represent the NOP's current thinking on these topics. It does not create or confer any rights for, or on, any person and does not operate to bind the NOP or the public. Guidance documents are intended to provide a uniform method for operations to comply that can reduce the burden of developing their own methods and simplify audits and inspections. Alternative approaches that can demonstrate compliance with the Organic Foods Production Act (OFPA), as amended (7 U.S.C. 6501-6522), and its implementing regulations are also

acceptable. The NOP strongly encourages industry to discuss alternative approaches with the NOP before implementing them to avoid unnecessary or wasteful expenditures of resources and to ensure the proposed alternative approach complies with the Act and its implementing regulations.

##### III. Electronic Access

Persons with access to Internet may obtain the draft guidance at either NOP's Web site at <http://www.ams.usda.gov/nop> or <http://www.regulations.gov>.

#### NUCLEAR REGULATORY COMMISSION

##### 10 CFR Part 37

[NRC-2010-0194; RIN 3150-A112]

#### Implementation Guidance for Physical Protection of Byproduct Material Category 1 and Category 2 Quantities of Radioactive Material; Draft Guidance Document for Comment; Extension of Comment Period

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Extension of comment period.

**SUMMARY:** On July 14, 2010, the U.S. Nuclear Regulatory Commission (NRC) noticed for public comment implementation guidance for a proposed rule to establish security requirements for the use and transport of Category 1 and Category 2 quantities of radioactive material. The public comment period for this guidance was to have expired on November 12, 2010. The NRC received several requests to extend the comment period to January 15, 2011. Due to the size and complexity of the draft implementation guidance and the associated proposed rule, the NRC has decided to extend the comment period until January 18, 2011.

**DATES:** The comment period has been extended and now expires on January 18, 2011. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

**ADDRESSES:** Please include Docket ID NRC-2010-0194 in the subject line of your comments. For instructions on accessing documents related to this

action, see "Submitting Comments and Accessing Information" in the **SUPPLEMENTARY INFORMATION** section of this document. You may submit comments by any one of the following methods.

**Federal Rulemaking Web Site:** Go to <http://www.regulations.gov> and search for documents filed under Docket ID NRC-2010-0194. Address questions about NRC dockets to Carol Gallagher, telephone 301-492-3668; e-mail [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov).

**Mail comments to:** Cindy Bladley, Chief, Rules, Announcements, and Directives Branch (RADB), Office of Administration, Mail Stop: TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

**Fax comments to:** RADB at (301) 492-3446.

##### FOR FURTHER INFORMATION CONTACT:

Merri Horn, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: (301) 415-8126, e-mail: [Merri.Horn@nrc.gov](mailto:Merri.Horn@nrc.gov).

##### SUPPLEMENTARY INFORMATION:

##### Submitting Comments and Accessing Information

Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site <http://www.regulations.gov>. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed.

You can access publicly available documents related to this document using the following methods:

**NRC's Public Document Room (PDR):** The public may examine and have copied for a fee publicly available documents at the NRC's PDR, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland.

**NRC's Agencywide Documents Access and Management System (ADAMS):** Publicly available documents created or received at the NRC are available electronically at the NRC's Electronic

Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this page, the public can gain entry into ADAMS, which provides text and image files of NRC's public documents. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC's PDR reference staff at 1-800-397-4209, or 301-415-4737, or by e-mail to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov). The draft Part 37 implementation guidance is available electronically under ADAMS Accession Number ML101470684.

**Federal Rulemaking Web site:** Public comments and supporting materials related to the implementation guidance, including the draft implementation guidance, can be found at <http://www.regulations.gov> by searching on Docket ID NRC-2010-0194. Documents related to the proposed rule can be found by searching on Docket ID NRC 2008-0120.

### Discussion

The NRC published a proposed rule that would place the security requirements for use of Category 1 and Category 2 quantities of radioactive material into a new Part 37 of Title 10 of the Code of Federal Regulations. The proposed rule was published on June 15, 2010 (75 FR 33902) and the public comment period runs through October 13, 2010. The public comment period for the proposed rule is being extended to January 18, 2011, by separate notice. Documents related to the proposed rule can be found at <http://www.regulations.gov> by searching on Docket ID NRC 2008-0120.

In conjunction with the proposed rule, the NRC has developed implementation guidance. The implementation document provides guidance to a licensee or applicant for implementation of proposed 10 CFR Part 37, "Physical Protection of Byproduct Material," specifically Category 1 and Category 2 quantities of radioactive material. It is intended for use by applicants, licensees, Agreement States, and NRC staff. The document describes methods acceptable to the NRC staff for implementing proposed 10 CFR Part 37. The approaches and methods described in the document are provided for information only. Methods and solutions different from those described in the document are acceptable if they meet the requirements in proposed 10 CFR Part 37. The guidance is provided in the form of questions and answers on the provisions of the proposed rule. The draft implementation guidance document for proposed 10 CFR Part 37 is available electronically under ADAMS Accession

Number ML101470684, and can also be found at <http://www.regulations.gov> by searching on Docket ID: NRC-2010-0194.

On July 14, 2010 (75 FR 40756), the NRC noticed the availability of the implementation guidance for public comment. The public comment period for this guidance was to have expired on November 12, 2010. The NRC received several requests to extend the comment period to January 15, 2011. Due to the size and complexity of the draft implementation guidance and the associated proposed rule, the NRC has decided to extend the comment period until January 18, 2011.

Dated at Rockville, Maryland, this 29th day of September 2010.

For the Nuclear Regulatory Commission,  
**Mark Thaggard,**

*Deputy Director, Division of Intergovernmental Liaison and Rulemaking, Office of Federal and State Materials and Environmental Management Programs.*

## NUCLEAR REGULATORY COMMISSION

### 10 CFR Part 73

**RIN 3150-AI64**

**[NRC-2009-0163]**

### Physical Protection of Irradiated Reactor Fuel in Transit

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Proposed rule.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is proposing to amend its security regulations pertaining to the transport of irradiated reactor fuel (for purposes of this rulemaking, the terms "irradiated reactor fuel" and "spent nuclear fuel" (SNF) are used interchangeably). This proposed rule would establish generically applicable security requirements similar to those previously imposed by Commission orders issued after the terrorist attacks of September 11, 2001. The proposed rule would establish the acceptable performance standards and objectives for the protection of spent nuclear fuel shipments from theft, diversion, or radiological sabotage. The proposed amendments would apply to those licensees authorized to possess or transport spent nuclear fuel. The proposed security requirements would also address, in part, a petition for rulemaking from the State of Nevada (PRM-73-10) that requests that NRC

strengthen the regulations governing the security of spent nuclear fuel shipments against malevolent acts.

**DATES:** The comment period expires January 11, 2011. Submit comments specific to the information collection aspects of this rule by November 12, 2010. Comments received after this date will be considered if practical to do so, but the NRC is able to assure consideration only for comments received on or before this date.

**ADDRESSES:** Please include Docket ID: NRC-2009-0163 in the subject line of your comments. For instructions on submitting comments and accessing documents related to this action, see Section I, "Submitting Comments and Accessing Information" in the **SUPPLEMENTARY INFORMATION** section of this document. You may submit comments by any one of the following methods.

**Federal Rulemaking Web site:** Go to <http://www.regulations.gov> and search for documents filed under Docket ID: NRC-2009-0163. Address questions about the NRC dockets to Carol Gallagher 301-492-3668; e-mail [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov).

**Mail comments to:** Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, ATTN: Rulemakings and Adjudications Staff.

**E-mail comments to:** [Rulemaking.Comments@nrc.gov](mailto:Rulemaking.Comments@nrc.gov). If you do not receive a reply e-mail confirming that we have received your comments, contact us directly at (301) 415-1966.

**Hand deliver comments to:** 11555 Rockville Pike, Rockville, Maryland 20852, between 7:30 a.m. and 4:15 p.m. during Federal workdays. (Telephone 301-415-1966)

**Fax comments to:** Secretary, U.S. Nuclear Regulatory Commission at 301-415-1101.

**FOR FURTHER INFORMATION CONTACT:** Cardelia Maupin, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Telephone 301-415-2312, e-mail: [Cardelia.Maupin@nrc.gov](mailto:Cardelia.Maupin@nrc.gov).

### SUPPLEMENTARY INFORMATION:

- I. Submitting Comments and Accessing Information
- II. Background
- III. Discussion
  - A. What action is the NRC taking in this rule?
  - B. Why revise the requirements?
  - C. What is requested by the State of Nevada in its petition for rulemaking (PRM-73-10)?
  - D. What are the DOT routing requirements for spent nuclear fuel shipments?
  - E. What are the NRC routing requirements for spent nuclear fuel shipments?
