SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau conducts the annual Company Organization Survey (COS) to update and maintain a central, multipurpose Business Register (BR) database. In particular, the COS supplies critical information on the composition, organizational structure, and operating characteristics of multi-location companies.

The BR serves two fundamental purposes:

- First and most important, it provides sampling populations and enumeration lists for the Census Bureau's economic surveys and censuses, and it serves as an integral part of the statistical foundation underlying those programs. Essential for this purpose is the BR's ability to identify all known United States business establishments and their parent companies. Further, the BR must accurately record basic business attributes needed to control sampling and enumeration. These attributes include industrial and geographic classifications, and name and address information.
- Second, it provides establishment data that serve as the basis for the annual County Business Patterns (CBP) statistical series. The CBP publications present data on a number of establishments, first quarter payroll, annual payroll, and mid-March employment summarized by industry and employment size class for the United States, the District of Columbia, island areas, counties, and country-equivalents. No other annual or more frequent series of industry statistics provides comparable detail, particularly for small geographic areas.

II. Method of Collection

The 2014-2016 COS collection strategy will focus on launching electronic reporting as the primary collection option. As the Census Bureau moves to increase electronic response and process less paper, we plan to replace some form mailings with letters encouraging electronic response. The 2014-2016 COS will request company-level information from a selection of multi-establishment enterprises, which comprise roughly 42,000 parent companies and more than 1.4 million establishments. Additionally, the panel will include approximately 5,000 large single-location companies that may have added locations during the year. Electronic reporting will be available to all 2014-2016 COS respondents. Companies will receive and return responses by secure Internet transmission. Companies that cannot use the Internet may request a CD-ROM containing their electronic data or may request a paper questionnaire. COS content is identical for all of the reporting modes.

The instrument will include inquiries on ownership or control by domestic or foreign parent, ownership of foreign affiliates, and leased employment. Further, the instrument will list an inventory of establishments belonging to the company and its subsidiaries, and

request updates to these inventories, including additions, deletions, and changes to information on EIN, name and address, and industrial classification, end-of-year operating status, mid-March employment, first quarter payroll, and annual payroll.

Additionally, the Census Bureau will ask certain questions in the 2014–2016 COS in order to enhance content. We will include questions on ownership or control by domestic or foreign parents, ownership of foreign affiliates, research and development, leased employment, and manufacturing activities related to the Enterprise Statistics Program.

SUPPLEMENTARY INFORMATION:

Background

On November 8, 2013, the Department published the *Preliminary Results*. Between January 13, 2014, and January 22, 2014, Petitioners² and Goodman each submitted case and rebuttal briefs. On January 29, 2014, the Department conducted a hearing regarding this NSR.³ As explained in the memorandum from the Assistant Secretary for Enforcement and Compliance, the Department exercised its discretion to toll deadlines for the

duration of the closure of the Federal Government from October 1, through October 16, 2013.⁴ Therefore, all deadlines in this segment of the proceeding have been extended by 16 days. As a result, the revised deadline for the final results of this NSR is now April 3, 2014.

Scope of the Order

The products covered by the order are all grades of garlic, whole or separated into constituent cloves. The product is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 0703.20.0000, 0703.20.0010, 0703.20.0015, 0703.20.0020, 0703.20.0090, 0710.80.7060, 0710.80.9750, 0711.90.6000, 0711.90.6500, 2005.90.9500, 2005.90.9700, and 2005.99.9700. A full description of the scope of the order is contained in the Issues and Decision Memorandum.⁵ Although the HTSUS subheadings are provided for convenience and customs purposes, the written product description is dispositive.

Final Rescission of New Shipper Review

Due to the totality of circumstances, including price, quantity, and concerns regarding the relationship with another garlic exporter located in the PRC, as detailed in the Goodman Final Analysis Memorandum, the Department finds that Goodman's sales are not *bona fide*.⁶
