

BLM to use USFS-established R/RACs for the public participation purposes required by REA. Pursuant to the Interagency Agreement, the BLM and USFS utilized the BLM Resource Advisory Councils (RAC) to make recommendations on BLM and USFS recreation fee proposals in the following states: Arizona, Idaho, Montana, Nevada, New Mexico, North Dakota, South Dakota and Utah. The BLM and USFS utilized USFS R/RACs for the USFS's Eastern, Southern, Pacific Northwest (including BLM land in Oregon and Washington), Pacific Southwest (including BLM land in California) Regions, and the BLM and USFS land in the State of Colorado. The governors of Wyoming and Alaska have opted out of the advisory review process.

Although the Interagency Agreement expired September 1, 2011, the agencies have incorporated the outlined structure into current policies and procedures. Upon the request of the BLM RAC's Designated Federal Official, and with the concurrence of the USFS when their recreation fee proposals are at issue, the BLM RACs may review recreation fee proposals for BLM and/or USFS if that would facilitate the effective implementation of the REA.

SUPPLEMENTARY INFORMATION:

Background.—On November 19, 2001, the Department of Commerce issued an antidumping duty order on imports of pure magnesium in granular form from China (66 FR 57936). Following expedited first five-year reviews by Commerce and the Commission, effective March 26, 2007, Commerce issued a continuation of the antidumping duty order on imports of pure magnesium in granular form from China (72 FR 5417). The Commission is now conducting a second review to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct a full review or an expedited review. The Commission's determination in any expedited review will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to this review:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year review, as defined by the Department of Commerce.

(2) The *Subject Country* in this review is China.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determination, the Commission defined one *Domestic Like Product*—pure magnesium that included both granular magnesium and magnesium ingot. Two Commissioners defined the *Domestic Like Product* differently in the original determination. They found two *Domestic Like Products* corresponding to granular pure magnesium and pure magnesium ingot. In its expedited first five-year review determination, the Commission found one *Domestic Like Product* to include primary and

secondary pure and alloy magnesium whether in ingot or granular form. One Commissioner defined the *Domestic Like Product* differently in the expedited first five-year review, instead finding that pure magnesium and alloy magnesium (including secondary magnesium) were separate *Domestic Like Products*. For purposes of responding to the items requested in this notice, please provide information according to one *Domestic Like Product* that includes primary and secondary pure and alloy magnesium whether in ingot or granular form.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determination, the Commission defined the *Domestic Industry* as producers of pure magnesium, including grinding operations. One Commissioner defined the *Domestic Industry* differently in the original determination (i.e., not including grinders), and two Commissioners defined two separate *Domestic Industries* (i.e., domestic producers of granular pure magnesium and domestic producers of pure magnesium ingot, including grinders). The Commission also found that appropriate circumstances existed to exclude ESM from the *Domestic Industry*. In its expedited first five-year review determination, the Commission defined the *Domestic Like Product* as domestic producers of pure and alloy magnesium, including primary and secondary magnesium, and magnesium in ingot and granular form. The Commission also included grinders in the *Domestic Industry* producing magnesium. One Commissioner defined the *Domestic Industry* differently in the first five-year review, instead finding that grinders were not included in the *Domestic Industry*. Another Commissioner defined the *Domestic Industry* differently in the first five-year review, instead finding that there was one *Domestic Industry* composed of the domestic producers of pure magnesium whether in ingot or granular form, including grinders. For purposes of responding to the items requested in this notice, please provide information according to one *Domestic Industry* that includes domestic producers of pure and alloy magnesium, including primary and secondary magnesium, and magnesium in ingot and granular form.

(5) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into

the United States from a foreign manufacturer or through its selling agent.

Participation in the review and public service list.—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the review as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the review.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation. The Commission's designated agency ethics official has advised that a five-year review is not considered the "same particular matter" as the corresponding underlying original investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 73 FR 24609 (May 5, 2008). This advice was developed in consultation with the Office of Government Ethics. Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Carol McCue Verratti, Deputy Agency Ethics Official, at (202) 205-3088.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in this review available to authorized applicants under the APO issued in the review, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the review. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission's rules, any person submitting information to the Commission in connection with this review must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

Written submissions.—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is March 2, 2012. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct an expedited or full review. The deadline for filing such comments is April 16, 2012. All written submissions must conform with the provisions of sections 201.8 and 207.3 of the Commission's rules and any submissions that contain BPI must also conform with the requirements of sections 201.6 and 207.7 of the Commission's rules. Please be aware that the Commission's rules with respect to electronic filing have been amended. The amendments took effect on November 7, 2011. See 76 Fed. Reg. 61937 (Oct. 6, 2011) and the newly revised Commission's Handbook on E-Filing, available on the Commission's Web site at <http://edis.usitc.gov>. Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the review you do not need to serve your response).

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative

forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act in making its determination in the review.
