BILLING CODE 4810-AK-P

DEPARTMENT OF VETERANS AFFAIRS

Privacy Act of 1974; System of Records

AGENCY: Board of Veterans' Appeals (Board), Department of Veterans Affairs (VA).

ACTION: Notice of a modified system of records.

SUMMARY: Pursuant to the Privacy Act of 1974, notice is hereby given that the Department of Veterans Affairs (VA) proposes to modify an existing system of records, "Veterans Appellate Records System—VA" (44VA01). This system is used by the Board of Veterans' Appeals (Board) to process and track appeals, hearing requests, and information related to appeals of benefits decisions issued by the Veterans Benefits Administration (VBA), Veterans Health Administration (VHA), and National Cemetery Administration (NCA).

DATES: Comments on this modified system of records must be received no later than 30 days after date of publication in the **Federal Register**. If no public comment is received during the period allowed for comment or unless otherwise published in the **Federal Register** by VA, the modified system of records will become effective a minimum of 30 days after date of publication in the **Federal Register**. If

VA receives public comments, VA shall review the comments to determine whether any changes to the notice are necessary.

ADDRESSES: Comments may be submitted through www.Regulations.gov or mailed to VA Privacy Service, 810 Vermont Avenue NW, (005R1A), Washington, DC 20420. Comments should indicate that they are submitted in response to "Veterans Appellate Records System—VA" (44VA01). Comments received will be available at regulations.gov for public viewing, inspection or copies.

FOR FURTHER INFORMATION CONTACT: Kary Charlebois, Kary.Charlebois@va.gov, Chief, Privacy Act & FOIA, Board of Veterans' Appeals, Department of Veterans Affairs, 810 Vermont Avenue NW, Washington, DC 20420, (202) 382-2906.

SUPPLEMENTARY INFORMATION: The Board proposes to add records from two new IT systems to this system of records:

1. The first new IT system is Caseflow, which is the Board's appeals management system, used to track and process appeals adjudicated under the Veteran Appeals Improvement and Modernization Act of 2017 (AMA), or the modernized system.

2. The second new IT system is the Veterans Benefits Management System (VBMS). The Board utilizes the VBMS eFolder to store files related to appeals from non-VBMS business lines, such as the Veterans Health Administration (VHA). Storing the electronic files in VBMS allows for adjudication of the appeal utilizing Caseflow, which pulls from VBMS.

The Board proposes to add a new routine as routine use #19 which will permit the release of information from this system of records to the Office of Personnel Management (OPM) in connection with the application or effect of civil service laws, rules, regulations, or OPM guidelines in particular situations.

The Board is removing routine use #14 covering disclosure to the Comptroller General.

The Board is also revising the following routine uses:

1. Routine use #1 has been renumbered as routine use #5, to alert law enforcement personnel and security guards to the presence of dangerous persons in VA facilities or at VA activities conducted in non-VA facilities.

2. Routine use #2 has been revised and renumbered as routine use #4 for disclosure of information relevant to a suspected or reasonably imminent violation of law.

3. Routine use #3 has been renumbered as routine use #13 for disclosure for the development of a claimant's claim for VA benefits.

4. Routine use #4 has been revised and renumbered as routine use #1, for disclosure to a congressional office.

5. Routine use #5 has been revised and renumbered as routine use #11, for disclosure to the National Archives and Records Administration.

6. Routine use #6 has been renumbered as routine use #14, for disclosure to a former representative of a beneficiary.

7. Routine use #7 has been renumbered as routine use #15, for disclosure related to the legality or ethical propriety of the conduct of a person or organization prospectively, presently, or formerly representing a person in a matter before VA.

8. Routine use #8 has been renumbered as routine use #16, for disclosure to the VA-appointed representative of an employee.

9. Routine use #9 has been revised and renumbered as routine use #10 for disclosure to the Merit Systems Protection Board.

10. Routine use #10 has been revised and renumbered as routine use #8 for disclosure to the Equal Employment Opportunity Commission.

11. Routine use #11 has been revised and renumbered as routine use #9 for disclosure to the Federal Labor Relations Authority.

12. Routine use #12 has been renumbered as routine use #17 for disclosure to the United States Court of Appeals for Veterans Claims.

13. Routine use #13 has been revised and renumbered as routine use #18, for disclosure to accredited service organizations, VA-approved claim agents, and attorneys acting under a declaration of representation.

14. Routine use #15 has been revised and renumbered as routine use #6, for disclosure to the Department of Justice, or in a proceeding before a court, adjudicative body, or other administrative body before which VA is authorized to appear.

15. Routine use #16 has been revised and renumbered as routine use #7 for disclosure to contractors and others doing work for VA.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Information is kept in a computer database entitled VACOLS and backed up on database backup server. Archived records that were created prior to expansion of the Board's electronic storage capability may be stored in filing folders or cabinets, microfiche, computer disks, or computer tape. Hearings before the Board are digitally recorded and stored indefinitely. Where a facility must use audio tape to record hearings, the recording is maintained for one year after which period it is destroyed. A transcript is made for each hearing held and is electronically

attached to the record in VACOLS and/or VBMS. Digital recordings of hearings are maintained on a back-up server. Under the Vital Records Schedule, electronic back-up tapes are updated quarterly.

Caseflow information is stored in a database on the AWS GovCloud. The database is backed up in near real time data for failovers and recovery. Caseflow digitally stores all information on the AWS GovCloud. Virtual hearing audio files are digitally recorded and stored in the Cloud indefinitely. A digital transcript is made for each hearing held and it is electronically stored in VBMS eFolder. VBMS eFolder is the official copy of record for adjudicating claims for VA.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

VACOLS records in this system may be retrieved by any searchable field in the VACOLS database. This system notice covers only information retrieved by an individual's name or other identifier. Archived material from this system that is not in VACOLS may be retrieved by Veteran's name, VA file number, or Board archive citation number.

Caseflow records stored in the database are retrieved by any searchable field in the Caseflow application. This system covers information retrieved by an individual's name or other identifier. Caseflow application access is controlled by Common Security Employee Manager (CSEM) and roles define the level of access within the Caseflow application. Caseflow is an internal VA application.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records in this system, in VACOLS, and those collected prior to VACOLS' use as a repository are retained indefinitely as Category B Vital Records unless otherwise specifically noted. Under the Vital Records Schedule, electronic backups are destroyed by erasure upon receipt of the next quarterly electronic back up set. Recordings of hearings will be made as described in Rule 714, 38 CFR 20.714, and transcriptions of recordings of hearings will be attached electronically in VACOLS and/or VBMS. Electronic recordings of hearings will be retained for at least one year from the date of the hearing, giving the hearing subject the opportunity to challenge the accuracy of the transcript. Records in the Caseflow system are stored and backed up in AWS GovCloud and the electronic recordings of hearings will be retained

indefinitely as archive in AWS GovCloud.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Files are under custody of designated VA employees, including employees of the Board and its contractor, all of whom have a need to know the contents of the system of records in order to perform their duties. Access to VACOLS is strictly limited to reflect the need individual employees have for the different records in the system. Where a Veterans Service Organization office is located in a VA facility and has access to VACOLS through the Wide Area Network, that access is strictly limited to viewing records of current clients of the organization. No personal identifiers are used in statistical and management reports, and personal identifiers are removed from all archived Board decisions and other records in this system before VA makes them available to the public. Files kept by the contractor are in a locked safe in locked rooms in a secured building. Caseflow is a cloud application and the Cloud data center physical security begins at the Perimeter Layer restricting physical access.

RECORD ACCESS PROCEDURES:

Individuals seeking information regarding access to information contained in this system of records may write or call the Board of Veterans' Appeals Freedom of Information Act Officer, whose address and telephone number are as follows: Freedom of Information Act Officer (01C1), Board of Veterans' Appeals, 810 Vermont Avenue NW, Washington, DC 20420; (202) 382-2906.

Title: CFM Stakeholder Feedback Survey.

OMB Control Number: 2900–XXXX.

Type of Review: New collection.

Abstract: The Office of Construction & Facilities Management (CFM) Stakeholder Feedback Survey collects information for all of CFM’s lines of business: major construction, major leases, facility condition assessments, and engineering studies. Respondents are members of project teams, and the information is related to how well the teams are performing. The purpose of the Stakeholder Feedback Survey Program is to improve project team performance across the four lines of business covered by the survey.

Respondents include federal employees in the Department of Veteran Affairs throughout CFM, Veterans Health Administration, and National Cemetery Administration, as well as U.S. Army Corps of Engineers construction management teams. The survey also collects information from members of private contractors associated with the projects described above (e.g., architecture/engineering, construction, developers/lessors). Respondents provide feedback on the performance of the technical sub-teams with whom they have worked on a particular project.

The survey uses a set of ten questions to collect the information on team performance, plus two open-ended questions that address what is going well and concerns. The survey is delivered via email with a link to an

online collection instrument. Advance notice and reminder emails are used to encourage participation.

The survey is administered by a federal contracting team (Blue Water Thinking and Booz Allen Hamilton). Raw data is seen and handled only by members of this team. Summary results are provided to CFM via a dashboard designed as part of the contract to design and administer the survey.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The **Federal Register** Notice with a 60-day comment period soliciting comments on this collection of information was published at 88 FR 85 on May 3, 2023, pages 27957 and 27958.

Affected Public: Members of private contracting firms associated with the projects described above (e.g., architecture/engineering, construction, developers/lessors) are asked to complete the survey.

Estimated Annual Burden: 77 hours.

Estimated Average Burden per Respondent: 8 minutes.

Frequency of Response: Team members of Major Construction and Major Leasing projects are asked to complete the survey twice a year for the duration of the project. Team members of all other types of projects are asked to complete the survey once a year.

Estimated Number of Respondents: 578.

By direction of the Secretary.

VA PRA Clearance Officer (Alt.), Office of Enterprise and Integration, Data Governance Analytics, Department of Veterans Affairs.
