

the mine operator connecting the blind drilled shaft to the underground mine.

(5) The blind drilled shaft is fully lined with steel casing and is grouted in place. This steel casing and grout seal isolate the completed blind drilled shaft from any coal seams mitigating any possibility for methane to enter the blind drilled shaft.

(6) The electric motor of any submersible pump is located below the pump intake making it impossible for the motor to ever be above the surface of the water.

(7) Currently there are no electric submersible motor/pump assemblies manufactured that will effectively pump water deeper than approximately 400 feet that are permissible as required in the existing standard.

(8) The petitioner proposes to use permissible pumps to dewater blind drilled shafts where depths are less than approximately 400 feet.

(9) At depths greater than approximately 400 feet, the alternative method outlined in this petition is consistent with prudent engineering design pursuant to 30 CFR 77.1900 whereas it minimizes the hazards to those employed in the initial or subsequent development of the blind drilled shaft.

The petitioner asserts that the proposed alternative method will at all times guarantee no less than the same measure of protection afforded by the existing standard.

Docket No: M-2013-028-C.

Petitioner: Brody Mining, LLC, 33207 Pond Fork Rd., Wharton, West Virginia 25208.

Mine: Brody Mine No. 1, MSHA I.D. No. 46-09086, located in Boone County, West Virginia.

Regulation Affected: 30 CFR 75.1909(b)(6) (Nonpermissible diesel-powered equipment; design and performance requirements).

Modification Request: The petitioner requests a modification of the existing standard to permit the use of the Getman Diesel Grader with rear wheel brakes only at the Brody Mine No. 1. The petitioner states that:

(1) The maximum speed of the diesel grader will be limited to 10 miles per hour by physically blocking the higher gear ratios that provide for speeds exceeding 10 miles per hour.

(2) The miners that operate the grader will be trained to recognize the gear blocking device and its proper application and requirements.

(3) The miners who operate the grader will be trained to drop the grader blade to provide additional stopping capability in emergencies.

(4) The low speeds coupled with the availability of the grader blade for stopping in emergencies will provide for the appropriate stopping ability. The rear wheel brakes will be maintained in proper working condition at all times.

(5) All other applicable requirements of the Federal Mine Safety and Health Act of 1977 and its corresponding regulations for the Getman grader will apply.

(6) This petition is limited to the Getman diesel grader, Serial No. 6732.

(7) The petitioner will submit to the District Manager proposed revisions for the approved 30 CFR part 48 training plan that will specify initial and refresher training consistent with the terms and conditions stated in this petition.

The petitioner asserts that the proposed alternative method will guarantee no less than the same measure of protection to all miners as would be provided by the existing standard.

Dated: June 13, 2013.

Director, Office of Standards, Regulations and Variances.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA-13-0029]

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before July 18, 2013. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting Records Management Services (ACNR) using one of the following means:

Mail: NARA (ACNR), 8601 Adelphi Road, College Park, MD 20740-6001.

Email: request.schedule@nara.gov.

FAX: 301-837-3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency which

submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT:

Margaret Hawkins, Director, Records Management Services (ACNR), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: 301-837-1799. Email: request.schedule@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

The schedules listed in this notice are media neutral unless specified otherwise. An item in a schedule is media neutral when the disposition instructions may be applied to records regardless of the medium in which the records are created and maintained. Items included in schedules submitted to NARA on or after December 17, 2007, are media neutral unless the item is limited to a specific medium. (See 36 CFR 1225.12(e).)

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control

number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

Schedules Pending

1. Department of the Army, U.S. Army Corps of Engineers (DAA-AU-2013-0003, 2 items, 1 temporary item).
