SUPPLEMENTARY INFORMATION:

History

On October 22, 2010, the FAA published in the **Federal Register** a notice of proposed rulemaking to amend Class E airspace 700 feet above the surface, at Sturgis, KY (75 FR 65253) Docket No. FAA-2010-0992. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9U dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 amends Class E airspace extending upward from 700 feet above the surface to support new SIAPs developed at Sturgis Municipal Airport, Sturgis, KY. Airspace reconfiguration is necessary due to the decommissioning of the Tradewater NDB and cancellation of the NDB approach, and for continued safety and management of IFR operations at the airport. This action also updates the geographic coordinates of the airport to coincide with the FAAs Aeronautical Products.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial

number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Class E airspace at Sturgis, KY.

SUPPLEMENTARY INFORMATION:

History

On October 27, 2010, the FAA published in the **Federal Register** a notice of proposed rulemaking to amend Class E airspace for Horseshoe Bay, TX, reconfiguring controlled airspace at Horseshoe Bay Resort Airport (75 FR 66013) Docket No. FAA-2010-0843. listed in this document will be published subsequently in the Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by amending Class E airspace for the Horseshoe Bay, TX area. Decommissioning of the Horseshoe Bay Resort NDB and cancellation of the NDB approach at Horseshoe Bay Resort Airport has made this action necessary for the safety and management of IFR operations at the airport. This action also reflects the name change of the airport from Horseshoe Bay Airpark to Horseshoe Bay Resort Airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Horseshoe Bay Resort Airport, Horseshoe Bay, TX.
