Proposed Project

The National Health and Nutrition Examination Survey (NHANES) Birth Certificate Linkage Study—New — National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

NCHS's Division of Health and Nutrition Examination Surveys (DHANES) proposes to re-contact women who were pregnant at the time of their participation in NHANES in 1999-2010 and ask permission to link their data to the child's birth certificate data, for the birth that resulted after the survey. This study is funded in collaboration with CDC's National Center for Chronic Disease Prevention and Health Promotion, Division of Reproductive Health (DRH). Participation is completely voluntary and confidential.
