SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we continue the CCP process for Tennessee NWR. We started the process through a notice in the **Federal Register** on April 2, 2008 (73 FR 17994).

On December 28, 1945, President Harry S. Truman signed Executive Order No. 9670 establishing the Tennessee NWR. The following day, the Department of the Interior and the Tennessee Valley Authority (TVA) entered an agreement that the lands would henceforth be reserved for use as a wildlife refuge. Tennessee NWR runs along 65 miles of the Tennessee River in Henry, Benton, Decatur, and Humphreys Counties, Tennessee. The refuge is comprised of three units: Duck River Unit (26,738 acres), Big Sandy Unit (21,348 acres), and Busseltown Unit (3,272 acres), for a total acreage of 51,358 acres.

Big Sandy is the northern-most unit, located at the junction of the Big Sandy and Tennessee Rivers, about 12 miles north of the town of Big Sandy. Most of the lands on this unit are upland and forested with little wetland management capabilities. Waterfowl management activities primarily consist of providing sanctuary on the waters and mudflats of Kentucky Lake and agriculture crops for foraging habitats.

The Duck River Unit is located at the junction of the Duck and Tennessee Rivers in Humphreys and Benton Counties. A wide variety of habitats is
