

remand in its entirety on December 24, 2014, and entered judgment.

Timken Notice

In its decision in *Timken*, 893 F.2d at 341, as clarified by *Diamond Sawblades*, the CAFC held that, pursuant to section 516A(e) of the Tariff Act of 1930, as amended (the Act), the Department must publish a notice of a court decision that is not “in harmony” with a Department determination and must suspend liquidation of entries pending a “conclusive” court decision. The CIT’s December 24, 2014, judgment affirming the *Final Second Remand* constitutes a final decision of that court that is not in harmony with *AFBs 17*. This notice is published in fulfillment of the publication requirements of *Timken*.

Amended Final Results

Because there is now a final court decision, the Department is amending *AFBs 17* with respect to Aisin’s weighted-average dumping margin as redetermined in the *Final First Remand*. The revised weighted-average dumping margin for the period May 1, 2005, to April 30, 2006, for Aisin is 1.13%.

Accordingly, the Department will continue the suspension of liquidation of the subject merchandise pending the expiration of the period of appeal or, if appealed, pending a final and conclusive court decision. In the event the Court’s ruling is not appealed, or if appealed and upheld by the Federal Circuit, the Department will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on entries of the subject merchandise exported by Aisin using the revised assessment rate calculated by the Department in the *Final First Remand* and listed above.

Cash Deposit Requirements

Because we revoked the antidumping duty order on ball bearings and parts thereof from Japan effective September 15, 2011, no cash deposits for estimated antidumping duties on future entries of subject merchandise will be required.⁶

Notification to Interested Parties

This notice is issued and published in accordance with sections 516A(e)(1), 751(a)(1), and 777(i)(1) of the Act.

Dated: January 15, 2015.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

Melamine From the People’s Republic of China and Trinidad and Tobago: Postponement of Preliminary Determinations of Countervailing Duty Investigations

AGENCY: Enforcement and Compliance, International Trade Administration, Commerce.

DATES: Effective January 22, 2015.

FOR FURTHER INFORMATION CONTACT:

Andrew Medley, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–4987.

SUPPLEMENTARY INFORMATION:

Background

On December 2, 2014, the Department of Commerce (“Department”) initiated countervailing duty investigations on melamine from the People’s Republic of China (“PRC”) and Trinidad and Tobago.¹ The current deadline for the preliminary determinations of these investigations is no later than February 5, 2015.

Postponement of Preliminary Determination

Section 703(b)(1) of the Tariff Act of 1930, as amended (“the Act”), requires the Department to issue the preliminary determination in a countervailing duty investigation within 65 days after the date on which the Department initiated the investigation. However, section 703(c)(1)(B) of the Act permits the Department to postpone making the preliminary determination until no later than 130 days after the date on which it initiated the investigation if, among other reasons, the petitioner makes a timely request for a postponement, or the Department concludes that the parties concerned are cooperating and determines that the investigation is extraordinarily complicated. On January

9, 2015, in accordance with 19 CFR 351.205(b)(2), Cornerstone Chemical Company (“Petitioner”) made timely requests to postpone the preliminary countervailing duty determinations.² Therefore, in accordance with section 703(c)(1)(A) of the Act, the Department is hereby postponing the preliminary countervailing duty determinations by 65 days to no later than April 11, 2015. However, because April 11, 2015, falls on a Saturday, the preliminary determinations are now due no later than April 13, 2015.³

This notice is issued and published pursuant to section 703(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: January 15, 2015.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

Renewable Energy and Energy Efficiency Business Directory Survey

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Opportunity to participate in business directory app.

SUMMARY: The U.S. Departments of State, Commerce, and Energy (the “Interagency Team”) announce an opportunity for U.S.-based suppliers and providers of clean energy, smart grid, and energy efficiency solutions to participate in the pilot phase of an interactive directory of renewable energy and energy efficiency solutions. The Interagency Team is currently developing an interactive app to serve as a mobile business directory for U.S. clean energy exporters. The app will highlight sustainability improvements at U.S. diplomatic missions and provide potential business partners globally with a searchable interface to find information on potential U.S. technology and service providers. The app will showcase a diverse array of clean energy goods and services, including renewable energy equipment

² See Letters from Petitioner titled “Melamine From The People’s Republic Of China: Request For Postponement Of The Preliminary Determination” and “Melamine From Trinidad and Tobago: Request For Postponement Of The Preliminary Determination,” dated January 9, 2015.

³ See Notice of Clarification: Application of “Next Business Day” Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended, 70 FR 24533 (May 10, 2005).

⁶ See *Ball Bearings and Parts Thereof From Japan and the United Kingdom: Final Results of Sunset Reviews and Revocation of Antidumping Duty Orders*, 79 FR 16771 (March 26, 2014).

¹ See *Melamine from the People’s Republic of China and Trinidad and Tobago: Initiation of Countervailing Duty Investigations*, 79 FR 73030 (December 9, 2014).

(solar, wind, geothermal), biofuels, fuel cell power, smart grid technologies, and energy efficiency solutions, as well as U.S.-based services critical to the deployment of clean energy supplies. U.S. clean energy exporters interested in registering to be part of the pilot phase of the interactive directory and providing information on their company's solutions to be included in the app are requested to send an email to reee@trade.gov by no later than February 20, 2015.

Who will use the app?

Target users include Foreign Service Officers and Foreign Commercial Service Officers and their energy sector stakeholders in international markets. The app will enable users to easily demonstrate U.S. clean energy and energy efficiency solutions available in foreign markets and provide a tool to facilitate commercial partnerships that drive the deployment of U.S. technologies and services globally. Through the app, a global audience, as well as the American public, will be invited to learn more about environmental diplomacy efforts overseas, and the innovative U.S. companies powering them.

Disclaimer

The information submitted to the directory and displayed on the app is intended to inform users about U.S. clean energy and energy efficiency solutions. All U.S.-based businesses in these industries that meet the criteria requested in the online form will be eligible for the directory and app. The Interagency Team will perform due diligence on submissions to the Directory and expects that submitting parties will perform their own due diligence, investigation, and background research before entering into a commercial relationship with any listed business or business contact facilitated through the product. A listing in the directory does not constitute endorsement of the business or its products, services or technology by the Interagency Team. The Interagency Team assumes no responsibility or liability for the actions users may take based on the information provided and reserves the right not to list any particular business.

ADDRESSES: To provide information for use in the app, send an email to reee@trade.gov by no later than February 20, 2015.

National Institute of Standards and Technology

Genome in a Bottle Consortium—Progress and Planning Workshop

AGENCY: National Institute of Standards & Technology (NIST), Commerce.

ACTION: Notice of public workshop.

SUMMARY: NIST announces the Genome in a Bottle Consortium meeting to be held on Thursday and Friday, January 29 and 30, 2015. The Genome in a Bottle Consortium is developing the reference materials, reference methods, and reference data needed to assess confidence in human whole genome variant calls. A principal motivation for this consortium is to enable performance assessment of sequencing and science-based regulatory oversight of clinical sequencing. The purpose of this meeting is to update participants about progress of the consortium work, continue to get broad input from individual stakeholders to update or refine the consortium work plan, continue to broadly solicit consortium membership from interested stakeholders, and invite members to participate in work plan implementation. Topics of discussion at this meeting will include release of the pilot candidate NIST Reference Material, short and long read data from the next sets of NIST Reference Materials, structural variants, and potential future Reference Materials.

DATES: The Genome in a Bottle Consortium meeting will be held on Thursday, January 29, 2015 from 9:00 a.m. to 5:30 p.m. Pacific Time and Friday, January 30, 2015 from 9:00 a.m. to 12:45 p.m. Pacific Time. Attendees must register by 5:00 p.m. Pacific Time on Thursday, January 22, 2015.

ADDRESSES: The meeting will be held in the Fisher Conference Center inside the Arrillaga Alumni Center at Stanford University, 326 Galvez Street, Stanford, CA 94305-6105. Please note admittance instructions under the **SUPPLEMENTARY INFORMATION** section of this notice.

FOR FURTHER INFORMATION CONTACT: For further information contact Justin Zook by email at jzook@nist.gov or by phone at (301) 975-4133 or Marc Salit by email at salit@nist.gov or by phone at (650) 350-2338. To register, go to: <http://app.certain.com/profile/form/index.cfm?PKformID=0x19409085b04>.

SUPPLEMENTARY INFORMATION: Clinical application of ultra high throughput sequencing (UHTS) for hereditary genetic diseases and oncology is rapidly growing. At present, there are no widely accepted genomic standards or quantitative performance metrics for confidence in variant calling. These standards and quantitative performance metrics are needed to achieve the confidence in measurement results expected for sound, reproducible research and regulated applications in the clinic. On April 13, 2012, NIST convened the workshop "Genome in a Bottle" to initiate a consortium to develop the reference materials, reference methods, and reference data needed to assess confidence in human whole genome variant calls (www.genomeinabottle.org). On August 16-17, 2012, NIST hosted the first large public meeting of the Genome in a Bottle Consortium, with about 100 participants from government, academic, and industry. This meeting was announced in the **Federal Register** (77 FR 43237) on July 24, 2012. A principal motivation for this consortium is to enable science-based regulatory oversight of clinical sequencing.

At the August 2012 meeting, the consortium established work plans for four technical working groups with the following responsibilities:

(1) Reference Material (RM) Selection and Design: Select appropriate sources for whole genome RMs and identify or design synthetic DNA constructs that could be spiked-in to samples for measurement assurance.

(2) Measurements for Reference Material Characterization: Design and carry out experiments to characterize the RMs using multiple sequencing methods, other methods, and validation of selected variants using orthogonal technologies.

(3) Bioinformatics, Data Integration, and Data Representation: Develop methods to analyze and integrate the data for each RM, as well as select appropriate formats to represent the data.

(4) Performance Metrics and Figures of Merit: Develop useful performance metrics and figures of merit that can be obtained through measurement of the RMs.
