SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau conducts a series of monthly, quarterly, and annual surveys as part of the Current Industrial Reports (CIR) program. The CIR surveys deal mainly with the quantity and value of shipments of particular products and occasionally with data on production and inventories; unfilled orders, receipts, stocks and consumption; and comparative data on domestic production, exports, and imports of the products they cover. These surveys

provide continuing and timely national statistical data on manufacturing. The results of these surveys are used extensively by individual firms, trade associations, and market analysts in planning or recommending marketing and legislative strategies.

The CIR program includes both mandatory and voluntary surveys. Typically, the monthly and quarterly surveys are conducted on a voluntary basis and annual collections are mandatory. The collection frequency of individual CIR surveys is determined by the cyclical nature of production, the need for frequent trade monitoring, or the use of data in Government economic

indicator series. Some monthly and quarterly CIR surveys have an annual "counterpart" collection. The annual counterpart collects annual data on a mandatory basis from those firms not participating in the more frequent collection.

Due to the large number of surveys in the CIR program, for clearance purposes, the CIR surveys are divided into "waves." One wave is resubmitted for clearance each year. This year the Census Bureau plans to submit mandatory and voluntary surveys of Wave III for clearance. The surveys in Wave III are:

Mandatory surveys	Voluntary survey
M311H—Fats and Oils (Warehouse) M311L—Fats and Oils (Renderers). M311M—Fats and Oils (Consumers). M311N—Fats and Oils (Producers). MA327E—Consumer, Scientific, Technical, and Industrial Glassware. MA333D—Construction Machinery. MA333F—Mining, Machinery and Mineral Processing Equipment. **MA334B—Selected Instruments & Related Products. **MA334M—Consumer Electronics. MA334P—Communication Equipment. **MA334Q—Semiconductors, Printed Circuit Boards, and Other Electronic Components. MA334R—Computers and Office and Accounting Machines. **MA334S—Electromedical and Irradiation Equipment. **MA335A—Switchgear, Switchboard Apparatus, Relays, and Industrial Controls.	*M336G—Civil Aircraft and Aircraft Engines.

* This voluntary survey has mandatory annual counterpart.

** Moved from another wave.

II. Method of Collection

We ask respondents to return monthly report forms within 10 days, quarterly report forms within 15 days, and annual report forms within 30 days of the initial mailing. SUPPLEMENTARY INFORMATION: The 2010 CAC was established in accordance with the Federal Advisory Committee Act (Title 5, United States Code (U.S.C.), Appendix 2). The following provides information about the Committee, membership, and nomination process:

Objectives and Duties

1. The 2010 CAC considers the needs of the decennial census from the perspective of outside data users and other organizations having a substantial interest and expertise in the conduct and outcome of the decennial. The Committee will provide advice on how best the Census Bureau can effectively and efficiently accomplish its decennial goals and objectives.

2. The 2010 CAC addresses policy, research, and technical issues related to the design and implementation of the 2010 decennial census, including the American Community Survey.

3. The Committee functions solely as an advisory body under the Federal Advisory Committee Act.

Membership

1. The Secretary of Commerce appoints the member organizations and designates the Chair and Vice-Chair of the Committee.

2. The 2010 CAC consists of a Chair, Vice-Chair, and a designated representative from each member organization. The 2010 CAC is comprised of up to twenty (20) member organizations. Member organizations represent data users, general governmental entities, technology-based organizations, and entities with expertise in the statutory and constitutional uses of census data, including redistricting. Membership also will include ex-officio members representing U.S. Senate and House of Representatives' Committees with census oversight responsibilities. A representative from the Census Advisory Committees on Race and Ethnic Populations also serves as ex-

officio member. Ex-officio members serve in a non-voting capacity.

3. Committee members are selected in accordance with applicable Department of Commerce guidelines. The Committee's composition should reflect a balance of viewpoints and perspectives, considering such factors as geography, diversity in the sectors represented (*i.e.*, business and industry, academia, consumers, etc.), and the public-at-large. The size and the scope of the member organization also are considered.

4. Committee members should have relevant backgrounds and experience to significantly assist and/or contribute to the overall functions, tasks, and missions of the decennial census. The members should bring diverse perspectives and be able to provide advice on policy and technical issues affecting the goals of ongoing decennial programs, surveys, and initiatives.

5. The Committee has the fewest number of members necessary to accomplish the objectives of the Charter. Committee membership will not duplicate other organizations, interests, or communities already represented on existing census advisory committees or census consultation groups (*i.e.*, Census Information Centers or State Data Centers).

6. Committee members report to the Director of the Census Bureau.

Miscellaneous

1. Members of the Committee serve without compensation, but the Census Bureau will, upon request, reimburse travel expenses, as authorized by 5 U.S.C. 5701, *et seq.*, dealing with travel and subsistence expenses.

2. The Committee meets at least once a year. Meetings are one to two days in duration.

3. Committee meetings are open to the public.

Nomination Information

1. The Census Bureau is seeking nominations for membership on the 2010 CAC to include organizations that are knowledgeable about issues related to the statutory and/or constitutional uses of the census data, general governmental entities, data users, and research and technology-based organizations.

2. Member organizations shall initially serve a staggered term of either two or three years. Upon completion of the initial terms, all subsequent terms shall be three years. Members may be invited to serve a second subsequent term contingent upon the organization's active participation in advisory committee activities, overall advisory

committee needs for that organization's expertise and specialized advice, and the status and schedule of decennial planning activities and implementation.

3. Nominations of organizations may come from individuals or organizations. Organizations also may self-nominate. A summary of the organization's qualifications and the experience that qualifies it for membership should be included in the nomination letter. Nominated organizations must be able to actively participate in the tasks of the Committee, including, but not limited to regular meeting attendance, review of materials, and participation in conference calls, working groups, and special committee activities. *All DCAC members included under the previous charter must apply for membership under the new 2010 CAC charter and structure.*

4. The Department of Commerce is committed to equal opportunity in the workplace and seeks diverse Committee membership.
